

COMMITTEES OF THE HOUSE WILL BE NAMED BY SPEAKER M'KINLEY

NO COMMITTEE ON COMMITTEES WILL BE ELECTED IN HOUSE

After the bitterest fight that has been waged on the floor of the House for many years the House adopted a motion by a vote of 72 to 69 directing the speaker to appoint the standing committees—Hubbard and Lee O'Neil Browne principals in hot debate.

SPRINGFIELD, ILL., FEB. 20.—There will be no committee on committees in the house of the forty-eighth general assembly. Instead the committees of the house will be named by Speaker McKinley. In effect this is the result of the bitterest fight that has been waged on the floor of the house in the recollection of the oldest members here. The battle started under a special order immediately after the reading of the journal today. There was a cessation of hostilities at noon while the fifth joint ballot on the long and short terms senatorships were taken, but immediately after the joint session arose the battle was renewed. It ended at 3 o'clock in the afternoon when, by a vote of 72 to 69, the house adopted Hull's substitute motion directing the speaker to appoint the standing committees of the house and to name a committee of nine to report permanent rules.

Rapp Opens Proceedings. Representative Rapp opened today's proceedings by introducing a resolution providing for the selection of a committee on committees from the floor of the house. Representative McLaughlin offered a substitute motion providing for a committee of 18 members, each party to name its own members. The McLaughlin substitute carried with it as the Democratic selections on the committee the list of nine named at the conference on Tuesday night as follows: The speaker and Messrs. McLaughlin, Karch, Hubbard, Garesche, Sullivan, Rapp, Fahy and Browne.

Representative Morton D. Hull, Republican, offered as a substitute that the speaker appoint the committees of the house and name a committee to act with him in drafting the permanent rules.

Storm Breaks. The storm which has been brewing among the Democratic factions since the convening of the session broke after Rapp, McLaughlin and Hull had each spoken to their motions. McLaughlin in the course of his remarks declared:

"The more we try to get together on this side, the farther apart we seem to get."

Denounces Dunne's Action. The fire-works started when Representative Lee O'Neil Browne of LaSalle was recognized. A moment later the fight that has been brewing for days between Governor Dunne and several Democratic house members broke. Bitterly denouncing the new governor's action in refusing to accept the committee list selected by the Democratic conference Browne warned members of his party that it is riding to destruction, chaos and wreck.

"I hope this is not true," he said "but I fear it, and I cannot see any clearing of the clouds. You Democrats are following the course of destruction and failing to grasp an opportunity. You are making of this session a farce and a joke."

Prior to these statements Browne openly charged that the committee selections made by the Democratic conference were not acceptable to the governor who "decided it" meaning the list "would not do."

"Therefore," went on the former minority leader, "the members must override the Democratic action of this house. If that's Progressism, then in God's name, give me something else. I don't want it and neither do you."

Kane Defends Governor. Representative Kane of Harrisburg and Representative Hubbard of Carrollton, the leader of the so-called Hubbard-Huston faction on the Democratic side defended Governor Dunne against Browne's attack, and also battled for the committee on committees, declaring the party platform had gone on record as favoring the innovation and that faith must be kept with the people.

Representative Hubbard's reply to Browne was vitriolic but it in no way compared with Browne's answer when the latter closed the debate, speaking to a matter of personal privilege. Persons who have attended the sessions of the general assembly for 20 years say they don't remember ever hearing similar language used upon the floor. In part the text of Mr. Hubbard's speech, which called forth the reply from Browne was as follows:

Hubbard's Speech. "As my name appears on the list, I deem it proper to make some explanation to clear the atmosphere. When this session convened it was apparent that there was a division in the Democratic ranks and the line was drawn, not by the members of the legislature, but by the people of the state and by Governor Dunne, more than by any other man. The principle at stake is whether the bosses or the people shall rule in the Democratic party of Illinois. My definition of the average conservative is a man who is too big a coward to either fight or run. Governor Dunne is a man of this type."

REPORTS QUIET AT MEXICAN CAPITAL

AMBASSADOR WILSON REPORTS CONDITIONS TO STATE DEPARTMENT

Mexico City is Rapidly Assuming Normal Conditions But it is Not Known How Long This Peaceful Condition Will Endure.

WASHINGTON, FEB. 20.—Rapidly the Mexican capital is turning to normal conditions, reports to Ambassador Wilson's secretary to the state department. These disclosed that quiet prevails, that the police have resumed their duties and that it is even possible now to remit money through the banks from America to persons in a necessitous condition in Mexico, as a result of recent battles.

Whether this peaceful condition will continue for any length of time is a subject of much speculation among government officials. The general opinion is that unless some special inducement can be held out in the way of desirable offices, the rebel leaders in the north will refuse to recognize the new government and will have to be hunted down by force before they can be subdued. It was fully expected that Zapata would be irreconcilable, being moved by cupidity rather than patriotic motives. Although his force is numerous it has never distinguished itself by engaging in a general concerted campaign against the government. Instead, this leader has preferred guerrilla methods, which though annoying, are not particularly dangerous to the stability of the government, and it is assumed that he will continue this policy.

Yesterday General Huerta informed Ambassador Wilson that Gustavo Madero had been killed without orders by the soldiers, but he also stated that Gustavo had joined with the president in two attempts to assassinate him (Huerta) and had held him a prisoner for a whole day. Looking backward it is now believed that this was the reason that Ambassador Wilson was refused a conference with Huerta except in the presence of Madero himself, Huerta being practically a prisoner at that time and under suspicion. One of the small clouds in the otherwise clearing sky of the new regime was the action of the legislature of the state of Coahuila in refusing, on constitutional grounds, to recognize the authority of General Huerta, preparing to arm troops to resist his authority and appealing to the governors of other states to adopt a similar attitude.

Troops Are Sufficient. Washington, Feb. 20.—Gov. Colquitt's request for an increase in the troops now patrolling the Texas frontier are met at the war department with the statement that the present patrol, number about 4,000 troops, is sufficient for the adequate protection of border interests as demonstrated by the excellent results obtained in the last two years.

Will Make Demands. El Paso, Feb. 20.—Before continuing the campaign in northern Mexico rebels will make certain demands on the Huerta provisional government. The principal request was the immediate application of the land clause in the San Luis Potosi plan as formed in the Madero revolution and later accepted by all revolutionary elements. Sale of public lands on easy payments will be asked.

Will Recognize Huerta. Laredo, Texas, Feb. 20.—Revolutionary leaders in control of Nuevo Laredo announced tonight that they would recognize General Huerta as provisional president. He has been so notified and the troops there under the direct command of Pascual Orozco, Sr., and Andres Garza Galan placed under his orders. Two days ago a statement was issued from the headquarters of the revolutionists in which it was declared that Huerta was not acceptable to them and that the campaign would be continued until another man was chosen as chief executive of the republic. This decision was rescinded at a conference tonight when it was decided that recognition of the present provisional president would be to best interests of the country.

Rebels Raid Ranches. Brownsville, Texas, Feb. 20.—Rebels enroute from San Benito, Mexico to join those at the town of Matamoros, across the border from Brownsville, looted two ranches today according to advices received here tonight.

At Soliseno ranch 24 miles west of Matamoros, \$2,000 in cash and horses and mules and cattle were stolen. A store was pillaged and employees of the ranch robbed. One aged woman was forced to surrender \$100 which she had hidden in her dress. La Palma ranch also was raided, but the extent of the operations there has not been learned.

When the band left it numbered eighty and recruits were found and it was reported that about 200 men now are in the party.

Criticism Suffragettes. Chicago, Feb. 20.—Criticism of the belligerent attitude of English suffragists in their campaign to obtain votes for women is expressed in resolutions signed by nearly one hundred of the leading women of the Abraham Lincoln center, one of the leading independent churches of this city and forwarded today to Lady Emily Pankhurst in London.

The resolution deprecates "the belligerent, law-defiant, attitude of those sisters in England, who by their belligerency, we fear are menacing the cause dear to them and to us."

THURSDAY IN CONGRESS.

Senate.

Met at noon. Began debate on river and harbors appropriation bill. Finance committee endorsed Lodge bill for tariff commission of five members.

Library committee was directed to ascertain correct version of Lincoln's Gettysburg address. Commerce committee agreed to favorably report a bill appropriating about \$1,000,000 for light house service.

Passed house bill giving Idaho authority to open certain phosphate and oil lands. Adjourned at 4:49 p. m., until noon Friday.

House.

Met at noon. Resumed debate on sundry civil appropriation bill.

Chairman Hay of military affairs committee introduced bill to reduce number of officers of each armory regiment.

Representative Stanley urged judiciary committee to recommend passage of bill to prohibit holding companies from engaging in interstate commerce.

Shipping "trust" investigating committee heard testimony of Great Lakes rates.

Adjourned at 10:25 p. m., until 10:30 a. m., Friday.

THREE DAYS BATTLE REPORTED AT BULAIR

DISPATCH MAY BE REVIVAL OF OLD REPORT OF FIGHTING

Situation at Adrianople Remains Unchanged—Servian Artillery Will Assist Montenegrins at Scutari—Montenegro Will Not Abandon Her Claim on Scutari.

London, Feb. 20.—The story of a three days' battle at Bulair in which 3,500 men on each side were reported killed or wounded, contained in a despatch received here today, is now believed to be a revival of an old report of fighting in that district. Rumors that Enver Bey had landed a large force at Rodosto were current on Feb. 16, but since have been denied. An uncensored Constantinople despatch says that Scheffek Pasha visited the Bulair lines Wednesday, but has given no indication that a new battle had been fought.

The situation at Adrianople remains unchanged. The Porte having refused to permit foreigners to leave Adrianople, the governor of the fortress has offered to set apart the Karagatch quarter on the right bank of the Maritza river as a sanctuary for the 1400 foreign residents. It is doubtful, however, if Bulgaria will consent to this. The Servians have brought up heavy artillery to assist the Montenegrins in a renewed attack on Scutari. M. Popovitch, the Montenegrin delegate in London, visited the foreign office today and informed the British government that under no circumstances could Montenegro acquiesce in any transaction under which she would be required to abandon her claim to Scutari. He added that Montenegro would take the town soon and after the sacrifices made would suffer annihilation rather than give it up. A semi-official statement issued at St. Petersburg says that Bulgaria and Roumania have already accepted the mediation of the powers.

May Land Greek Troops. London, Feb. 20.—A despatch to the Daily Mail from Dardanelles says that thirty-five Greek transports are waiting at Mytilene with the intention, the correspondents believe, of landing troops at Besika bay. The landing of the forces has been delayed by weather conditions.

Twelve thousand Turkish troops are being transported from Gallipoli to the town of Darwanelles, while several thousand others with searchlights are being despatched by land towards Besika bay.

The same papers Constantinople correspondent says it is practically impossible for fighting to be resumed at the Tchatalja lines for at least three weeks.

SUSTAINED DEMURRER. New York, Feb. 20.—Federal Judge Cox today sustained the demurrer of the federal Sugar Refining company in the suit brought by government to recover reliquidated duties on imported sugar aggregating \$119,000. Collector Loeb recently held that the original entries made by the company were fraudulent.

Commerce Court Extension Stricken. The proposed extension of the life of the United States commerce court from March 4 to June 30 was today stricken out of the legislative, executive and judicial appropriation bill by the conferees acting for the house and senate. It is the understanding, however, that provision will be made in the general deficiency bill still to be acted upon for a continuance of the court under the date named.

The commerce court was abolished by the action of congress last year, but the extension of its activities to June 30 is desired to allow the court calendar to be cleared of pending legislation.

Kansas City, Mo., Feb. 20.—J. H. Harrison, United States marshal for Kansas, today destroyed twelve hundred bottles of catnip at the plant of a Kansas City, Kan., wholesale grocer. The shipment came from Neosho, Mo., several weeks ago. It was misbranded.

FOUGHT A DRAPE. Joplin, Mo., Feb. 20.—Jack (Twin) Sullivan of Buffalo, N. Y., and Jeff Clarke of this city fought ten fast rounds to a draw here.

AWARDED \$22,200 FOR FINGER. Seattle, Wash., Feb. 20.—A jury awarded \$22,200 to Mrs. Anna L. Valentine, wife of L. L. Valentine, Chicago furniture manufacturer because the door of a Northern Pacific car was slammed upon her little finger necessitating amputation at the middle knuckle. The accident occurred on a train from Seattle to Portland.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Feb. 20.—For Illinois: Snow or rain in north and rain in south portion and colder Friday; Saturday probably fair, increasing northeast winds.

Temperatures. Chicago, Feb. 20.—The current, maximum and minimum temperatures for today were:

Boston	54	60	32
Buffalo	40	54	50
New York	48	56	34
New Orleans	64	70	24
Chicago	35	41	38
Detroit	38	50	42
Omaha	26	28	20
St. Paul	24	26	18
Helena	24	28	14
San Francisco	56	38	46
Winnipeg	2	10	-4

REPORT NAVAL BILL TO HOUSE

Measure Carries \$146,000,000 and Provides For Two Battleships

TO BE TAKEN UP TODAY

Amendment to Provide One Dreadnaught Instead of Two Lost 9 to 12

OTHER WASHINGTON DOINGS

WASHINGTON, FEB. 21.—The naval appropriation bill carrying \$146,000,000 and authorizing two battleships, one transport, one supply ship, six torpedo boat destroyers and four submarines was reported late today to the house. It probably will be taken up tomorrow. Secretary Meyer was on the floor of the house when the measure was brought in. A final vote on the battleship construction question over which there had been a contest for weeks was taken at the last moment. An amendment to provide for one battleship instead of two was lost 9 to 12, the economy advocates gaining two votes. Representatives Gregg of Texas, Hensley of Missouri, Buchanan of Illinois and Witherspoon of Mississippi gave notice that they would file a minority report. Representative Trible of Georgia, one of the leading no-battleship men, said that he did not intend to filibuster against the measure but would oppose it on the floor of the house and insist upon a recorded vote.

Confident of Putting Bill Through. The "big navy" men of the house were confident tonight of putting the bill through as reported. Sentiment on the battleship question among the Democrats is said to be almost equally divided while a considerable measure of the Republicans favor building at least two this year. Last year when only one battleship was authorized the naval bill appropriated \$123,151,538. This year, besides providing for two dreadnaughts, the committee increased the amount for pay of the navy by about \$2,000,000 and made substantial increases in the allowances for armor, armament, ammunition, fuel and supplies.

Senate Fight on Harbor Bill. Extravagance in the present system of improving waterways and the need of closer co-operation between states and the federal government was emphasized in the senate today in a fight over certain provisions of the annual river and harbor appropriation bill. Senator Nelson, chairman of the senate commerce committee, said better results could be secured in waterway improvement if congress should appropriate a lump sum of money and leave the details of river improvement to a commission of army engineers. Both branches of congress struggled with measures throughout the day, the house devoting its time to further debate over the \$113,000,000 sundry civil bill.

Want Dam Near Minneapolis. The senate again went through the fight over federal water-power control in debate of the river and harbor bill. An amendment providing for a thirty-foot dam near Minneapolis by which water-power would be developed was adopted after friends of federal control had renewed the fight that center about the Connecticut river bill last week. Final action was not taken on the bill. Senator McLean of Connecticut will offer the Connecticut river dam bill over which the senate spent a week of debate, as an amendment to the river and harbor bill tomorrow. The senate passed without debate the annual diplomatic and consular appropriation bill authorizing \$3,700,000 for the support of the government's foreign service. The measure will have to be perfected in a conference committee. The senate committee on public buildings and grounds completed the public buildings bill, which carries about \$20,000,000 more than the house bill. A memorial bridge across the Potomac river from Washington to Arlington National cemetery at a cost of \$5,000,000 is provided for.

Commerce Court Extension Stricken. The proposed extension of the life of the United States commerce court from March 4 to June 30 was today stricken out of the legislative, executive and judicial appropriation bill by the conferees acting for the house and senate. It is the understanding, however, that provision will be made in the general deficiency bill still to be acted upon for a continuance of the court under the date named.

The commerce court was abolished by the action of congress last year, but the extension of its activities to June 30 is desired to allow the court calendar to be cleared of pending legislation.

Kansas City, Mo., Feb. 20.—J. H. Harrison, United States marshal for Kansas, today destroyed twelve hundred bottles of catnip at the plant of a Kansas City, Kan., wholesale grocer. The shipment came from Neosho, Mo., several weeks ago. It was misbranded.

FOUGHT A DRAPE. Joplin, Mo., Feb. 20.—Jack (Twin) Sullivan of Buffalo, N. Y., and Jeff Clarke of this city fought ten fast rounds to a draw here.

AWARDED \$22,200 FOR FINGER. Seattle, Wash., Feb. 20.—A jury awarded \$22,200 to Mrs. Anna L. Valentine, wife of L. L. Valentine, Chicago furniture manufacturer because the door of a Northern Pacific car was slammed upon her little finger necessitating amputation at the middle knuckle. The accident occurred on a train from Seattle to Portland.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Feb. 20.—For Illinois: Snow or rain in north and rain in south portion and colder Friday; Saturday probably fair, increasing northeast winds.

Temperatures. Chicago, Feb. 20.—The current, maximum and minimum temperatures for today were:

Boston	54	60	32
Buffalo	40	54	50
New York	48	56	34
New Orleans	64	70	24
Chicago	35	41	38

COURT ATTESTS CITY'S AUTHORITY

HAS POWER TO COMPEL CHAUFFEURS TO SUBMIT TO EXAMINATION

Court's Opinion Holds That Powerful Vehicles Are a Menace Unless Driven by Competent Persons—Other Supreme Court Decisions.

SPRINGFIELD, ILL., FEB. 20.—That a city council has the power to license and compel drivers of motor vehicles for hire to submit to an examination was the opinion of the supreme court rendered to day in the case of the City of Chicago against Fred Kinever, who was found guilty in the Municipal court of Chicago of violating this ordinance. The court in its opinion says: "These ponderous vehicles driven by powerful engines are a menace to public safety until driven by competent persons."

Upholds Commissioners. The action of the Cook county commissioners in permitting the Catholic church to erect a chapel on the grounds of the Oak Forest institution is upheld by the supreme court.

Edward C. Richwald brought action against the Catholic Bishop of Chicago to enjoin the erection of the chapel on the grounds that the constitution forbids the expenditure of public money in the interest of any religious sect. The supreme court says that while the constitution prohibits the county from giving the church any property it does not prohibit the church from giving the county property as is done in the right to erect the chapel at its own expense.

Have Right to Bar Negroes. The supreme court holds that incorporated cemeteries associations have the right to prohibit the burial of negroes within their grounds in an opinion handed down to day in the case of John R. Gaskell, who sought to compel the Forest Home Cemetery association to permit him to enter the body of his wife in the lot which he had purchased some time ago and in which his children lie buried. The cemetery association some time after the burial of Gaskell's children adopted a by-law prohibiting the interment of any colored person in the cemetery. The supreme court holds that none of the constitutional rights of Gaskell were lost by the refusal of the association to receive the body of his wife for burial.

Remanded to Jail. The efforts of John Johnson, a negro murderer who is serving a life term of imprisonment in Joliet penitentiary to secure his release at the hands of the supreme court by habeas corpus proceedings on the ground that he should have been sent to the Chester penitentiary instead of the penitentiary at Joliet, proved unavailable. The supreme court to day held that he was not illegally imprisoned because he was sent to Joliet, instead of Chester and remanded Johnson to the custody of Warden Murphy of the Joliet penitentiary. Johnson was convicted of murder at the October term of court at the Chester penitentiary in 1898 of the Vermillion county circuit court and twice reversed. Acting Governor W. A. Northcott on Feb. 23rd, 1899, the day previous to the one on which he was to have been executed, commuted the sentence to "life imprisonment in Joliet penitentiary", Governor Yates being absent at the time.

Juvenile Court Act Vailed. The juvenile court act was to day voided by the Illinois supreme court in the case of Elizabeth Lindsey and Ottoman Zar-Adusht Hanish brought to restore to the custody of Mrs. Lindsey, her son, William, who had been taken from her because of her association with the Mazdaznan cult. The circuit court sitting sitting as a juvenile court is reversing.

It was alleged that the juvenile court act in violation of the federal constitution, by being non-resident are not within the jurisdiction; that William Lindsey was not a dependent child and the juvenile court act deprives children and parents of personal liberty. The court holds none of these views valid. It decides that Mrs. Lindsey and the boy are non-residents. It finds in the records nothing to sustain the allegation that she had neglected him or failed to care for him properly in every respect. It also finds there is no evidence that Hanish exerted any influence over the boy, or ever taught him any of the doctrines of his cult. There is no evidence that the boy ever read any of the Hanish books.

WARNED AGAINST FORGERS. St. Paul, Minn., Feb. 20.—St. Paul today warned merchants and police of towns and cities of the northwest to be on their guard against two clever forgers who at St. Paul, last week secured a considerable sum of money from two department stores here and who are thought by local police to have left for Duluth and Winnipeg. The papers which were passed here were drawn on the Franklin Trust and Savings bank of Pittsburgh, Pa., and the Iowa National bank of Des Moines.

AWARDED \$22,200 FOR FINGER. Seattle, Wash., Feb. 20.—A jury awarded \$22,200 to Mrs. Anna L. Valentine, wife of L. L. Valentine, Chicago furniture manufacturer because the door of a Northern Pacific car was slammed upon her little finger necessitating amputation at the middle knuckle. The accident occurred on a train from Seattle to Portland.

FOUGHT A DRAPE. Joplin, Mo., Feb. 20.—Jack (Twin) Sullivan of Buffalo, N. Y., and Jeff Clarke of this city fought ten fast rounds to a draw here.

AWARDED \$22,200 FOR FINGER. Seattle, Wash., Feb. 20.—A jury awarded \$22,200 to Mrs. Anna L. Valentine, wife of L. L. Valentine, Chicago furniture manufacturer because the door of a Northern Pacific car was slammed upon her little finger necessitating amputation at the middle knuckle. The accident occurred on a train from Seattle to Portland.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Feb. 20.—For Illinois: Snow or rain in north and rain in south portion and colder Friday; Saturday probably fair, increasing northeast winds.

Temperatures. Chicago, Feb. 20.—The current, maximum and minimum temperatures for today were:

MADERO'S FATE IS UNCERTAIN

Ex-President Will Have Hearing Before Cabinet Who Will Decide

CABINET TAKE OATHS

President Huerta's Official Family Take Oath of Office in Palace

BARGAINS

The wise buyer will not be caught by an adroitly worded advertisement offering bargains in flour and as scarce as white black birds. "Pure" high grade flour is as staple as silver dollars. There is partly a fluctuation of over more than a cent a bushel in wheat in any one day. If flour is offered for a greater difference it will be grounds for suspicion. The buyer of alleged "bargains" gets just what he pays for, but it will not be a bargain because it will not be made from sound wheat.

Our White Lily flour is absolutely "pure" and "high grade" made from sound wheat and not a lower grade flour artificially treated or bleached to bring it up to standard. It is absolutely pure. Do not permit any one to offer you an imitation or substitute for White Lily Flour at less money.

FARMERS GRAIN DEALERS MEET COMING YEAR IN OTTAWA

(Continued from Pages 8 and 9)

WERE HEARD IN SPLENDID ADDRESSES

HON. E. G. DUNN OF IOWA
SPEAKS BEFORE CONVENTION.

Declares Faith in Farmers to Create
Sentiment for Good Legislation
—Retiring President Wallbaum
Presented Clock—S. H. Greeley
Speaks.

The evening session of the Farmers' Grain Dealers' Association was addressed by Hon. E. G. Dunn of Iowa, who spoke in place of Governor Dunne who was unable to appear. Hon. S. H. Greeley of Chicago, before the address of Mr. Dunn, Mr. F. C. Wallbaum, the retiring president, was presented with a large handsome mahogany clock by the members of the association. The presentation speech was made by M. R. Myers of the Co-operative Journal. M. F. Dunlap presided for the evening session.

The meeting was called to order by the new president, H. W. Danforth, of Washington, who introduced Mr. Myers, who expressed appreciation to Mr. Wallbaum for his faithful and efficient work as president. He compared the clock to a true co-operator, both do their work silently and without show, both work to the best effect when things are harmonious, a clock to run must stand level just as a true co-operator must deal with everyone on the square. Our retiring president understands the true spirit of co-operation, on his farm, in his home and in his public service, and it is as a reward for his magnificent work that we present him this token.

Address by E. G. Dunn.
After Mr. Wallbaum had expressed a few words of gracious acknowledgment, president Danforth introduced the chairman, M. F. Dunlap, who made a few remarks on the present prosperity of Illinois farmer and prophesied even greater prosperity when all should be awake to the benefits of co-operation and should give their hand the care that is exercised by the farmers of many of the older countries of Europe. Mr. Dunlap then announced the non-appearance of Gov. Dunne, introducing in his place the defeated Democratic candidate for governorship of Iowa, Hon. E. G. Dunn, who spoke as follows:

"In speaking before you this evening, I wish to offer you my heartiest congratulations. You are doing a work which I have always watched with interest, having been present at every convention of this Grain

Dealers' association except the first. In such a convention, men meet from all over the state and from other states receive inspiration, and, as practical men, to discuss the serious problems which confront them. They who are interested in the advance of civilization may proceed in two ways, they may take the cause for which they fight into the courts, or they may rely on the often slower but surer method of popular education. Litigation is costly and can only be used in a negative way, after the wrong aimed at has been committed. It is on the positive method of education that we as intelligent men must rely. It has been educated public sentiment that we have won a fight for honest control of the farmer's elevator and grain shipment system, a fight that might have been futile if we had used the trust-busting tactics of the enemies of the meat-packers, or the rough and ready methods of the Kentucky tobacco grower.

Education Essential.
"To maintain this public sentiment, and for the sake of the struggles with evil money power we may have in the future, the education must not be neglected of our boys and girls. We should teach them of the life around them, of the everyday activities of home and farm, and of the inner workings of the government. If anyone says that knowledge of politics will corrupt our young people its about time to change politics. It is popular ignorance that permits the fraud and robbery of the large corporations, the cut-throat competition and the taxing of the people two billion dollars a year to pay the dividends on watered stock. We must depend upon education not ordinary education, but the kind that will instill into our young true principles of conduct.

Work or the Future.
"Let us be of cheerful heart, and look not to the past but to the future. Whether we live in town or in the country we all have our problems to face. In looking into the future let us resolve, as we help ourselves, to help others; let us go one step farther and determine to be willing to aid our fellow men whether we are benefited or not. Do not be discouraged if you see no immediate results, the world is moved more by the quiet conscientious work of the ordinary man than it is by the occasional brilliant stroke of the man of genius.

"When I return I shall carry greetings from the great state of Illinois to the great state of Iowa. I shall watch your progress with interest as, in fact, I have always done, and will leave you with the wish that you be of good courage to keep up the fight."

Address by S. H. Greeley.
Mr. S. H. Greeley, of Chicago, spoke of the growth of the association and of the weight given its official utterances by its opponents, the trust controlled grain dealers of the stock exchange. He urged united action in politics and not aimless division among all three of the parties which, according to the opinion of the speaker, are in this state all more or less corrupt. "Thirty thousand men united, can be a mighty factor for good in the politics of the state. I have no doubt but that the farmer is being robbed by organized graft in grain, and I am sorry to say the national administration itself has often been afraid to interfere in his behalf." The speaker proceeded to urge more compact organization, the raising of funds to keep up their fight and the use of every means possible to prevent the reckless and unscrupulous dealing in futures which is doing so much to undermine and ruin the business of the honest farmer and the honest commission merchant.

CONVENTION NOTES.

One of the prominent visitors Thursday was P. A. Balbach of Pontiac. He is a grain dealer and holds a membership in the Chicago board of trade.

The local committee of reception representing the Chamber of Commerce includes Frank Byrns, chairman; Mayor G. W. Davis, Charles R. Knollenberg and Dr. J. R. Harker, and they have done everything possible to take good care of the city's visitors. They had a list of a good many more rooms in private houses than were needed.

Immediately after the morning session all the delegates arranged themselves on seats especially provided for the purpose near the northeast corner of the square to have a picture taken. A very excellent picture of the big group was taken by an artist from the Wasson studio of Decatur.

William Cleary, who was appointed assistant secretary for the convention, has proven a good aid for Secretary McCreery and his services have been very satisfactory.

After the session this afternoon, probably at 2:30 o'clock, the visitors will be taken on street cars to the School for the Deaf and School for the Blind. Special programs will be given for them.

In the course of other remarks Thursday morning Mr. Myers, editor of the Co-operative Journal, took occasion to pay tribute to the excellent work done by G. E. Eckerle, the special representative for the association. He said that Mr. Eckerle had traveled more miles and raised more money during the past year than any other man in the movement.

In the absence of ex-President Wallbaum, Thursday morning a movement was started to present some sort of a token to him. In a few minutes' time a goodly sum had been raised and T. R. Cain, J. A.

McCreery and C. E. Eckerle were appointed a committee to buy the gift. After considering the matter thoroughly and looking at many possible gifts, the committee decided to purchase the very handsome mahogany clock from Andre & Andre, which was presented last night to Mr. Wallbaum.

When the visitors were having their pictures taken a little boy, dirty and ragged, ran into the group much to the annoyance of some of the men. Former Speaker Adkins soon settled the matter by grabbing the urchin and holding him in his lap.

Hon. Charles V. Miles, who was to have spoken the first day of the program on "Liability Law" will be the first speaker on today's program.

Ottawa won the contest for securing the convention for 1914. In fact there was not much of a contest as Ottawa had practically been promised the gathering held in Champaign in 1912.

The directors at their semi-annual meeting which will probably be in June, subject to the call of the president will fix the time of the next convention.

The directors will hold a meeting this morning at 7:30 o'clock at the Pacific hotel.

Yesterday the directors appointed Fred Wallbaum and J. A. McCreery as delegates to Louisville, Ky., to the meeting to be held there at 10 o'clock next Tuesday. They go to fight to proposed advanced freight rates, and to complete arrangements to get out an injunction restraining the railroads from advancing the rate.

The advanced freight rates as announced by the railroads is one cent for every one hundred pounds in Illinois, and to go into effect March 15. If the advance is made, it means a cost of one million and a half dollars to the farmers.

The directors appointed a committee of two of which President Danforth is one, and he to appoint another member. They will employ able counsel to go to Washington, D. C. in a few days in the interest of federal legislation pertaining to the marketing and handling of grain.

Secretary McCreery wired a telegram yesterday to the Agricultural committee of the United States Senate, Hon. Shelby M. Cullom and Hon. Henry T. Rainey, the resolution for Standardization of Grain grades, which was passed by the convention yesterday. The committee who drew up the resolutions was composed of F. S. Bets, S. C. Shaw and J. R. McCabe.

J. A. McCreery in speaking of the hospitality of the city last night said: "You can say for me that Jacksonville has done more for the convention and showed a finer spirit of hospitality and genuine kindness than any city in which the convention has ever been held. We all appreciate it most keenly."

PROGRAM FOR TODAY.

The program for today will be as follows:

9 a. m.—Call to order by the president.

Music—Illinois College quartet, Jacksonville.

Invocation—Rev. Clyde Darsie.

Report of resolutions committee.

Should a farmers' elevator be conducted along lines of co-operation or as a private business?—Hon. Chas. Lamb, Bement; Chas. Eckerle and others.

Terminal Market Conditions—S. C. Shaw, Tallula.

Our Friends, the Birds—Rev. Wm. H. Mason, Bethany.

Adjournment.

Afternoon Session—1:30 p. m.

Call to order by the president.

Short talks on the growth of the association.

WILLIAM ASHMAN SALE.

Dispose of Property and Will Move to This City.

William Ashman held a public sale at his residence, four miles west of Waverly Thursday. There was a good attendance and everything commanded satisfactory prices. One pair of young horses brought \$277.50, other horses sold from \$77.50 to \$100; sows, \$45 to \$67; heifers, \$38; calves, \$26; brood sows, \$25 to \$27; gilts, \$20 to \$22; pigs, \$4.25 to \$8; other hogs, from \$10 to \$11; corn, 54c per bu. Implements sold well.

J. G. Cox was the auctioneer and Mr. Reaugh, clerk. Mr. Ashman expects to move his family to this city.

Rain Coats in a variety of styles and prices and all good ones at FRANK BYRNS.

HOSPITAL AID SOCIETY.

The Hospital Aid society held an important meeting Thursday afternoon at the hospital. Considerable sewing was done and the society talked over some further plans for their dime socials. The next one will be between March 1 and the 15th, with Grace and Brooklyn churches in charge. Several new members' names were presented to the society for membership and the same will be voted on at the next regular meeting.

BIRTH RECORD.

Born, to Mr. and Mrs. Arvil Smith of West College street, Thursday, a daughter.

Born, to Mr. and Mrs. R. C. Deaton on North East street, Thursday, a daughter.

HOME FROM HOSPITAL.

Mrs. C. A. Rose, who has been a patient at Passavant hospital, where she underwent a serious surgical operation is recovered sufficiently as to be removed to her home, 609 Jordan street.

BUY PURE FOOD

The easiest way to save money is to save money in buying your goods.

Going Backward

Why not go backward? Why not especially when you can buy THE BEST QUALITY goods, handled in a STRICTLY SANITARY way in BULK and save the cost of advertising cans—cartons—labels—cases—packing, etc. This is exactly what you can do at ROBERTS BROS.

Roberts' Coffee

ROBERTS' coffees are sold in bulk exclusively direct to you and neither price nor quality change and they are the same Perfect Blends now that we originally introduced into Jacksonville. Bought right and sold right, 28, 33 1-3, 35, 37 1/2, 40 and 45c.

Old Fashioned New Orleans Molasses

Shipped direct to us from NEW ORLEANS with that color, body and flavor found only in the genuine N. O. Molasses. Sold in bulk and drawn from the barrel right in your presence. ONLY 40c gal.

"Monarch" Peanut Butter

An ideal food, delicious, nutritious, appetizing and wholesome. Made of selected Spanish peanuts and processed to form a thick, rich, smooth, palatable product of the consistency of dairy butter and used as butter on biscuits, bread, sandwiches, etc. Special large 24 oz. glass jars, 35c; 12 oz., 25c; 7 oz. jars, 15c; 3 oz. jars, 10c.

Beechnut Bacon

So they say! Mouths water for Beech-Nut Bacon. If yours doesn't, perhaps it's because the Beech-Nut flavor and your good tastes haven't met. When they do they will be friends for life.

This famous brand of Bacon in original packages is a money saver. In four or five pound packages you get identically the same bacon that you have been buying in jars. The package price is 35c a pound and in jars just about twice that amount.

PHARMACY DEPARTMENT

For Winter Chaps Use—Roberts' Almond Cream—The kind that absorbs immediately. You take no chances. Absolutely guaranteed.

Pure Castile Soap—"Bocobelli"—Free from all animal fats and only the finest grade of Olive Oil used in its composition. Made in two colors, white and green. Small cakes, 10c, 3 for 25c; large bars, 25c per pound.

Arthur Martin, who has been visiting with relatives in the city for the past two days, left last night over the Alton for his home in Seattle, Wash.

LOCAL CLUB OF ILLINOIS
IMPLEMENT DEALERS ASSOCIATION

Business Session of Organization is Followed By Excellent Addresses By M. F. Dunlap and A. C. Rice.

Local Club No. 1 of the Illinois Implement Dealers' association met here Thursday. At 10:30 o'clock the business session was held at the Pacific hotel and at 2 o'clock the meeting adjourned to the Ayers National bank building where the program of speaking was carried out. Dealers from this city, Chapin, Tallula, Arenzville, New Berlin, Ashland, Virginia, Winchester, Litterberry and other places were present.

In the business session a discussion was engaged in by all on how to meet the request of manufacturers for shorter terms and it was the unanimous opinion that to avoid raise in prices, customers purchasing goods on deferred payment should give their notes drawing interest.

The secretary of the association was requested to write to Prof. Holden of Chicago, the corn expert, to arrange a date for a lecture to be given on the subject of "Corn" in this city under the auspices of the association at a later date.

There was a good attendance at the meeting in the afternoon when splendid addresses were heard by M. F. Dunlap and A. C. Rice.

Address of M. F. Dunlap.
Mr. Dunlap was assigned the subject of "Collections." He expressed the view that co-operation is in truth beneficial to both dealer and farmer and that it is better for dealers to meet as friends and talk over affairs of mutual interest than to lose money through the non-payment of accounts. He said that the dealers should confer not with a view to raising prices but in reality with the hope of giving the farmers lower prices when possible. Mr. Dunlap mentioned that the custom has grown up of selling implements on credit without exact provision as to the time of payment and since the dealer must pay cash or nearly so for their goods they must charge the farmer enough additional to prevent loss on their part. He suggested that it would be better if the business could be put on a cash basis or a near cash basis, the farmer paying cash or giving an interest bearing note. A still better plan he thought would be to explain to customers what the saving would be if cash were paid. The speaker said a discount for cash could readily be given. If a farmer gives a six months note at six per cent that is equal to three per cent for the year and if he is allowed a discount of two per cent for cash this saving would total five per cent. If he fails to do this and buys on time his plan is equal to paying ten per cent.

Some years ago at sales the goods were offered on six months' time without interest. Later the rule was changed and the result has been that now almost always cash is paid. The country is realizing more and more the need of getting to a cash basis and the fact that selling on open account causes losses for all concerned.

In the south the planter gets one year's time but the prices are such that they pay dearly for this time factor.

Relation of Farmer and Dealer.
A. C. Rice talked about the relationship which should be between farmers and dealers and pointed out the duty the dealer has in keeping farmers in touch with any improvements in machinery. He mentioned too the point that the dealer should exert care to set machinery up with care and correctness in order to cause the farmer as little trouble as possible. On the other hand the farmer should for his own sake and for that of the dealer use all possible care with machinery and should house and protect it from the weather. If a machine or an implement wears out speedily because it has not been cared for properly then the dealer is injured as well as the farmer, because the machine or implement gets a name for inferiority. Other points well worth consideration were mentioned.

Colonial supper, Centenary church this evening, 25c.

IN HONOR OF BIRTHDAY.
Miss Augusta Carlson, who resides at 1261 South East street, was given a happy surprise Monday evening, by a number of her friends the occasion being her 18th birthday. The hours were spent in playing various games and having a good time in general. Miss Carlson was presented a beautiful amethyst ring, which it is needless to say she appreciates highly.

The following were among those present: Augusta Carlson, Helen Miller, Vita Mueller, Velma Whitlock, Ethel Reeve, Lillie Lind, Mary Moxon, Anna Crawley, Harold Wright, Warren Maddox, Charles Holmes, Lee Toomey, Gary Whitlock, David Gustafson.

GET YE READY FOR THE

BIG WHITE SALE

BULLETIN NO. 2.

Plans for holding the biggest white sale in our experience are being rapidly consummated. The date is set and the "boxes of bargains" are now arriving. The signal gun will be fired Wednesday morning, and the stampede begins

THURSDAY, FEBRUARY 27.

Continuing until Saturday, March 8. During these nine days the women of Jacksonville and vicinity will reap the biggest harvest of white goods bargains this community has ever known. Don't buy anything white until this sale. We are sweating big round, salty drops of perspiration getting things ready. But it's going to be worth our while—and yours. Be patient a few days longer.

HOLD MASQUERADE PARTY

Inter-Society Costume Event Will Take Place This Evening in Degen's Hall—List of Committees in Charge.

The most important event in the social season of the high school will be the inter-society costume party which will be held this evening in Degen's hall. The inter-society is composed of a body representing each literary society in the school and two faculty members. The purpose of this council is to arrange all inter-society matters and events. The party will begin at 7:30 and about 150 students will be in attendance all masked. The faculty will also attend as guests of the societies and will be masked and put on a number of stunts and the program is one that will afford no little amusement. The board members, together with their wives will act as patrons and patronesses.

The committees for the masquerade party follows:

Chairman—Prof. W. G. Bate.
General committee—Miss Melick, chairman; Abner Jackson, Boss Pyatt, Grace McLaughlin and Lucille Jones.
Sub-committees:
Programs and invitations—Principal W. A. Gore, chairman; Helen Obermeyer, Grace McLaughlin, Dorothy Camp.Hall, music and arrangements—George Coe, chairman; Mr. Cook, Boss Pyatt, Leila Struck, Harlan Williamson, Lillian Angel.
Refreshments—Lucille Johns, chairman; Marion Williamson, Richard Reynolds, Homer Furr and Dorothy Leck.

Society stunts—Miss Melick, chairman; Dorothy Danskin, Ethel Spry, Gladys Uzzel, Miss Kent, Miss Russell, Paul Morrison and Abner Jackson.

MADERO'S FATE IS UNCERTAIN

(CONTINUED FROM PAGE ONE)

placed under arrest on the same charge.

Francisco I. Madero, deposed president is the personal prisoner of General Huerta who refuses to accept the responsibility for his disposition.

The provisional president declared he would place the case of Madero before the cabinet ministers immediately after they were sworn into office.

There appeared a strong probability today that the appointment of a lunacy commission to examine him would be urged as a solution.

Afraid to Release Him.

Huerta was on the point of permitting Madero and Saurez, former vice-president to leave the country but was counselled to delay action by close friends who considered it probable that Madero would use his freedom to hatch new plots.

Senora Madero and the other women related to the ex-president spent the morning today in worried speculation. They were mystified and deeply apprehensive on account of General Huerta's refusal last night to permit the departure of Madero and Saurez after all had been prepared for their exile. The anxiety of the women was not relieved until shortly before noon when they were informed of the state of affairs. In the meantime Madero and Saurez were confined in rooms which had been assigned to them in the national palace and from which the guards were never absent. They were in a state of deep dejection as they had been informed of Gustavo Madero's death and were deeply concerned as to their own fate.

Refuses to Talk.

When informed of the provisional president's intention to permit the cabinet to settle his fate, Madero appeared not greatly relieved. He sat sullenly, refusing to answer any questions.

Madero's trial before the cabinet ministers will, it is said find Francisco de la Barra almost alone in counselling moderation and clemency.

Rodolfo Reyes, the minister of justice is likely to remember the death of his father in the attack on the palace and the high-handed manner in which he considers Madero treated him.

With the exception possible of two others, all the ministers have personal grievances thus making the cabinet-jury scarcely a friendly one.

Diaz is Cheered.

General Diaz came into his own late today, so far as a manifestation of popular approval was concerned. Riding at the head of his troops for nine days withstood the attacks of the government Diaz received such an ovation as had not been witnessed here since the triumphal entry of Madero at the close of his revolution. Crowds filled the streets to witness the march of the troops from the arsenal and the big square in front of the national palace where the troops passed in view before the new president was one great mass of humanity. In the line were the guns which had battered the palace and squads of men without uniform bore witness to the fact that Diaz had the support of others than mutinous soldiers.

Received By Huerta.

General Diaz' true to his standing as an army officer was dressed in civilian clothes. He was on horseback. A detachment of troops followed and then a line of carriages containing new members of the cabinet. At the palace Diaz and his staff were received by President Huerta in a most cordial manner.

Flags floated everywhere along the line of march and the appearance of Diaz was the signal for a great demonstration. Confetti and flowers were thrown from the balconies and "vivas" sounded in a vast chorus in which the foreigners joined. At the close of the review the troops were despatched to the different barracks. The crowds continued their jollification, thousands marched through the town carrying banners and dividing the "vivas" between popular idols—Huerta and Diaz.

All political prisoners throughout the country have been ordered released by President Huerta. One hundred and fifty prisoners in the penitentiary here hitherto overlooked were discovered this afternoon and set free.

Taft's Reply "Sensible"

Valparaiso, Chile, Feb. 20.—The views of the press here on the situation in Mexico are summed up by "El Mercurio" which says that President Taft's reply to the ex-president Madero was a sensible one. It adds: "Mexico inspires pity. The present situation there paralyzes any severe action on the part of the United States whose government wishes to show itself just and magnanimous for political and commercial reasons."

"We do not believe in intervention but should it come we must inquire before judging whether it is just or necessary or inevitable or humanitarian."

Fears Fresh Troubles.

Buenos Ayres, Argentina, Feb. 20.—The newspapers here rejoice in the termination of the Mexican crisis. The "Tribuna" however declares that it fears fresh troubles will arise and provoke intervention by the United States "against which all nations of South America protest."

TO SUBMIT SUFFRAGE QUESTION

Lansing, Mich., Feb. 20.—The house of representatives this afternoon passed a resolution providing the re-submission of the woman suffrage question at the April election this year. The bill now goes to the senate. Equal suffrage in Michigan was defeated in the fall election by a close vote.

TROITSKY CATHEDRAL BURNED.

St. Petersburg, Feb. 20.—The Troitsky cathedral was destroyed by fire today. The great collection of pictures, carvings and precious relics which had been gathered in the building since its erection in 1703 by Peter, the Great, were saved.

KRAMER BROS.

A HIGH DIVER

To be Tried For the Murder of Sophia Singer.

Chicago, Feb. 20.—All preparations have been completed for the opening on next Monday in the criminal court of the trial of Charles Kramer, alias Conway, a former circus clown and high diver, and his alleged wife, Lillian Beatrice Ryall Conway, a vaudeville performer with a checkered past and many aliases, who are charged with having murdered Miss Sophia G. Singer, a wealthy young woman from Baltimore, on the night of October 28, 1912. The case has attracted considerable attention owing to the peculiarity of some of its features and the sensational circumstances under which Conway and his wife were arrested a few days after the murder.

Miss Sophia G. Singer, the victim of the crime, was the daughter of the late Frank O. Singer, formerly a wealthy business man in Baltimore. The family is well connected. Miss Singer was wealthy in her own name, having inherited \$30,000 from her father's estate. About a year ago she became acquainted with Wm. R. Worthen, then a street railway conductor in Baltimore. She fell in love with him and early in October of last year she gathered together her jewels and about \$1,000 in cash and eloped with Worthen to Chicago. They rented furnished rooms in a rooming house at 3229 Indiana avenue and lived there together to the day of the murder. Their room neighbors in the same apartment were Charles Kramer, alias Charles A. Conway, and his alleged wife, a vaudeville singer known as "Beatrice Ryall." "Mayme Coyne" and Lillian Beatrice Ryall Conway. Kramer had formerly been a circus performer, but had lost one of his legs through an accident. It is alleged that Kramer and his wife were practically down and out and were befriended and financially assisted by Miss Singer and Worthen.

On the evening of October 28, Worthen left his sweetheart alone in their apartment and attended to some business matters. When he returned to the house shortly after midnight he found Miss Singer dead in her room. She had been bound and gagged and beaten to death with a "billy" improvised out of an iron door knob wrapped in a handkerchief. Her skull was crushed and her body had been rolled up in a blanket.

Worthen aroused the neighbors and informed the police, giving a minute account of his movements from the moment he left the house until he returned to the apartment and found the body of his sweetheart. He was arrested on suspicion and a thorough search of the apartment was made by the detectives. The investigation brought to light that Kramer and his wife had left the house between ten and eleven o'clock on the evening of the murder and had not returned to their apartment. A thorough search was made for them, as the police authorities began to suspect that the couple had something to do with the murder of Miss Singer.

It was known that Miss Singer had a considerable sum of money in her possession at the time of her death, but when the apartment was searched after the murder no money or jewelry was found by the detectives. Worthen was able to establish an alibi and was released from confinement after a day or two.

Kramer and his wife were traced through several states and on October 31 were arrested in a hotel at Lima, Ohio, where they had arrived the same morning. They had registered as Mr. and Mrs. C. A. Crowley of Sidney, Ohio. Both denied all guilty knowledge of the details of the crime, although they admitted having read about it. Separately Kramer and his wife were closely

questioned by the police and their statements were so conflicting, their attempt to clear themselves and to throw suspicion upon other persons, so clumsy, that both were held without bail and turned over to the Chicago police authorities.

When Kramer was arrested \$11 were found in his pockets. He explained that before he left Chicago Miss Singer had given him \$35. He also had two new suits which he claimed Miss Singer had given him. He had several scratches on his face for which he could give no plausible explanation. Through a chain of circumstantial evidence it was established that Kramer and his wife had left the house on Indiana avenue between eleven and twelve o'clock on October 28, a short time after Miss Singer met her death. It is believed that since authorities have collected a large amount of evidence of a serious nature and that upon the strength of this evidence the prosecution will demand that both defendants, if found guilty, be sentenced to pay the death penalty for their crime.

ADDITIONAL FACTS IN REGARD TO TUBERCULOSIS.

How long and under what conditions the tubercle bacilli live outside the body are questions of grave importance both to the farmer and to the keeper of a house. Unless the housewife is constantly on the alert she may administer contagion or even death to her family. How? Dr. Charles F. Briscoe in Bulletin No. 161 published by the University of Illinois agricultural experiment station relates that out of 1,233 samples of butter offered for sale, 163 were contaminated by tubercle bacilli; in 7,397 samples of market milk examined, tubercle bacilli were present in 502. This offers a dangerous source of contagion, especially for children.

The experiments showed that tubercle bacilli live for ten months in butter in cold storage. They live in the tissues of a dead guinea pig exposed in the water, for more than 321 days. In autumn in running water, they live for more than 282 days. The tubercle bacilli, not in spore, live for 441 days.

Tubercular animals alive or dead are a menace. They should, in the cause of common safety, be killed and their carcasses burned.

Human and bovine tubercle bacilli live for practically the same time and much longer than has been generally supposed.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.

ADVISES FARMERS TO RAISE LIVE STOCK.

Montgomery, Ala., Feb. 20.—With a large and representative attendance of farmers, the Alabama Live Stock association today opened its annual meeting in this city today. In his opening address President C. A. Cary urged the farmers to devote a portion of their time and capital to the raising of live stock instead of staking all in the cotton crop. The meeting will conclude its business tomorrow.

Henry Luke of Berlin, was among the visitors in the city yesterday.

IN FLORIDA.

 Dear Journal and Friends: We

left the oldest city in the United States, Saint Augustine, because we did not like the situation. The town is low and the surrounding country the same. A tidal wave of twenty feet would inundate the town and whole country and then the water is horrible and one cannot get used to drinking it.

The first town we stopped at was Palatka, a town of 6,000 inhabitants, situated on the bank of the St. John river, but the surrounding country is also low and the water bad. Sanford was our next choice, but the same conditions were present and we decided to strike into the country westward, so we went down the line thirty miles and stopped at this place. It was night when we arrived and a good rest at the Robert Burns Inn did us much good. When we awoke next morning and saw sunshine on the lake, the noble pine trees draped in Spanish moss, the orchards of orange, grape fruit and flowers, and breathed the pure atmosphere and saw the elevation of the place, we decided to make our camp here for a couple of months at least. This will be our headquarters, where we can receive our mail and pile away our baggage. We will run around some more, in order to spy out the land, that we will be able to give any one a true description of these parts, so that those who wish to come for health, wealth or fun of frolic, may come direct and not be at the trouble of hunting as we have been.

Mount Dora is a nice little town of about 500 inhabitants, situated on a beautiful lake (of the same name), full of good fish and devoid of the marshes that generally go with the southern lakes. The altitude is about 200 feet. Some of the natives claim this to be the highest altitude in the state. The town is set down in a forest of the long leaf yellow pine and live oak; these draped in green-gray Spanish moss and when the soft, balmy winds blow, the pines sigh and the moss waves in all directions, making the forest seem enchanted. Then right among this beautiful scenery, man has tried his hand to improve on nature in his insignificant way. He has built lovely homes, planted beautiful flowers and cultivated the flowering shrubs, and planted and perfected the different kinds of fruit, until the production of nature and of art stand side by side, each being a help to the other and blending together, make the place a desirable dwelling place for man.

This is directly in the fruit belt and the orange and grape fruit is the staple crop; although men tell us that they do not have to depend on the orange for a livelihood. The hard freeze of 1895-96 demonstrated this fact, for the oranges were all killed and the population had to live till the trees grew again, so they turned their attention to farming, or rather truck gardening, and found that they could dig a good living out of the soil independent of the fruit. The fruit pays the best and is almost a sure thing; and then it is a drawing card to catch the tourists, for it would be a very cheerless trip for a northerner to come down here and find no oranges and it would be a long, dreary winter to these people if the tourists did not appear. A crop of tourists is almost as essential to the welfare of this country as a crop of fruit; but the crop is short this year, for some reason. Some say such is the case in presidential years; others think the mild winter up north has a good deal to do with it; but we have a theory of our own. We have heard a great many complaints of the treatment of tourists, down here, mostly from people of moderate means. They claim that the rent is too high, that the houses are

not properly furnished and that everybody charges double price for everything they (the tourists) eat or wear. So one trip for such people is about the limit and they either stay at home or go elsewhere. We have no kick to register. We expected to pay for our recreation and it would do no good to whine anyway. We know that living, everywhere, is high and when we put up at a two dollar per day hotel, we do not see how they could afford to run the business for any less, for they are clean and have every every convenience that one could wish for. When we came here, the first thing we did was to rent a cottage in the heart of town, in sight of the lake and close to the postoffice and church, and now we are living on oranges, grape fruit, lemons, vegetables, fish and once in a while we buy a pound of Swift's breakfast bacon, not because we need it, but to keep familiar with that Illinois taste that lingers in every Sucker's mouth, let him go where he will.

The atmosphere here is good and the water fine, even finer than the water in the "spring of eternal youth" at St. Augustine, and we are afraid the genuineness of the combination of the two is going to cause us to vacate our lodgings, for we are accumulating such appetites that we will not be able to satisfy them if they are a strong one. We are not working at present, but would not turn our nose up if a good job was offered us, that would not take up any of our time; we need all of our time to look around and fish. Well, we did have a little work to do when we went to housekeeping. Mrs. Mc ordered a half dozen fly killers made, we borrowed a saw and bought a nickel's worth of wire screening and completed the job in good time, and then you ought to have seen the flies go. They seemed to be very friendly toward tourists, but whether it was a genuine regard for us or a make believe for the purpose of preying on our good things, we do not know and it was all the same with our housekeeper, for she passed an ordinance that it would not be agreeable, nor safe, for two families to live in the same house and that the fly must go. Now they peep in at the back door and when they see one of those machines, made of fine wire, they go mournfully away and no doubt, if they could talk, they would be telling a hard luck story like a good many of our brethren are at the present time on about the same lines. We also did some other work. We bought a cord of pine wood, in four foot lengths, borrowed a buck saw and saw horse and went to work; we thought we could saw it in one day and split it in another, but we were mistaken. We have sawed many cords of wood, but never fully realized just how much labor it required until we worked this cord in Florida. Now our friends will smile when we told them that the weather was really too hot in the middle of the day, to saw wood; so we pulled off our undershirts, bought a Panama hat and some fishing tackle and made a break for the lake, where we could get a good breeze. We finished the wood in ten days and we believe we did well at that. It is wonderful how soon a man will become ornery and lazy in this climate. We used to have a great contempt for the people down here on account of their shiftless ways, but our contempt is changing to sympathy since we became a citizen of this locality.

We have met many fine people down here, mostly from the north. Almost every state is represented. Some come for their health, some for a vacation and others just to be doing. Some bring their machines with them and have, what they call, a good time, but we would not advise our friends to try this plan; it is costly and you are compelled to keep the beaten track, which does not always satisfy one's curiosity, and then this is a sand country and hard on machinery. We are going to have a yacht regatta on the Lake Dora

next Tuesday. About ten launches will be trying for the prize and much fun is expected. We had the satisfaction last week of plucking our first banana from the parent stock before it was cut from the ground. We found it delicious, but not more so than those we ate from the fruit ship at Mobile. There are two churches here, the Congregationalist and M. E. South. We have attended both and heard good sermons; also enjoyed the Sunday schools. Hoping this will find all of our friends as well as it leaves us, we remain, &c., D. K. and Mrs. McCarty, Mount Dora, Fla.

NOTICE TO CONTRACTORS.

Sealed proposals will be received at the office of the undersigned, for the erection of a new eighth grade public school building in Jacksonville, Ill. up to 2 p. m. Monday, March 17th, 1913 in accordance with plans and specifications prepared by C. W. Buckingham, architect 225 1-2 East State street, Jacksonville, Ill. Bids shall be accompanied by certified check in the sum of ten per cent of the total bid. All contractors, sub-contractors and dealers in material may submit bids in accordance with plans and specifications on file in the office of the undersigned in the city hall, Jacksonville, Ill. Plans and specifications can also be obtained at the office of C. W. Buckingham. Contractors who desire to take plans from the architect's office shall deposit \$10 with the architect. The board of education reserves the right to reject any or all bids.

R. L. Pyatt, Clerk of Board of Education, Jacksonville, Ill., Feb. 15, 1913.

THE COUNTRY LAWYER.

The country lawyer, again, is often unfairly a member of the community about him; he knows a breaching from a headstall and takes an interest in his garden and his fruit trees. He must drive many miles even in these days of railways, in fair weather and foul, and is wholly a stranger to much of the luxury of the city. He talks over the fence with Hiram and John about the spring peas, and everybody knows when he buys a new horse. The many hours that he spends over his book mean so much better ability to do the work of his profession, and his way of living and attainments are approved when some day he presents a case full of "good law." His influence on local politics means much. No profession furnishes its members with character, but the law makes a good one the stronger. The country lawyer in his particular field and through his qualities as a citizen can and does much to show that an urban existence is by no means the be-all and the end-all of a man's ambition, and in so much exerts an influence against the abnormal trend of population toward the cities. We need hardly add that many benches in the United States are distinctly strengthened by the presence of judges bred as country lawyers, for it will be found that men's attention to their duties is that of those that first and last think of the law.

MILLION DOLLAR BUILDING.

Dallas, Texas, Feb. 20.—Ground will be broken tomorrow for a million dollar building to be erected in Dallas by Sears, Roebuck & Co., the Chicago mail order house. The building is to be used by the firm as a supply depot for the southwest.

A POPULAR JUDGE.

Judge D. T. Helmlich is in receipt of a communication notifying him that his services will be desired as one of the judges at the poultry exhibition to be held in Los Angeles, Calif., in January, 1914. Mr. Helmlich has already been selected a judge in coming events in Denver, Colo., and in Provo, Utah.

MAY FORM NEW FEDERAL DISTRICT IN ILLINOIS

Political Story Alleged to Have Emulated From Col. J. Hamilton Lewis Tells About Possible U. S. Judgeship for Judge Owen P. Thompson.

The Chicago Tribune recently had a three column article taken from Peoria Star and purporting to be a political letter written by J. Hamilton Lewis reviewing the entire situation in a state and national way. It was stated that Col. Lewis wrote the letter to the political editor of the Chicago Post and that it was expressly understood that in no manner should the name of the writer be made known. Further it was said that Col. Lewis in writing the article took no pains to so phrase it that there would be nothing in the text to in any way indicate that he was the author of it. How it became known that Col. Lewis wrote the letter is not stated and the Tribune does not say on its own authority that such is the case.

In one paragraph of the story it is set forth that Col. Lewis is more fit for ambassadorship than for a senatorship and that he might withdraw from the contest in Illinois if he was sent to England or France to represent the United States. One statement of local interest made is that as favor to Col. Bryan that a new federal district is to be created in Illinois and that Judge Owen P. Thompson of Jacksonville is to be appointed the judge. The paragraphs on this subject are as follows:

Reward for Bryan
 "Mr. Bryan is to receive a personal reward in Illinois. A new federal district is to be created in southern Illinois, with Jacksonville as the head. This is to relieve the congestion of federal business down state. The federal judge will be Judge O. P. Thompson of Jacksonville.

"Judge Thompson has long made the fight for Bryan. He led the fight for Bryan in the convention at St. Louis when he was fighting the national committee man, Roger Sullivan of Illinois.

"Opposition here has sprung rapidly to Mr. Bryan being put in the campaign as secretary of state. The opposition comes from the financial sources in the east, who are interested in the Philippines.

"These interests claim that if Mr. Bryan is put in as secretary of state he will at once inaugurate a policy for taking the Philippines away from the United States and returning them to the Filipinos and will do it with such suddenness that he will precipitate upon the country much trouble and great losses to the financiers who have been advancing commercial enterprises in the Philippine islands.

"Another objection is made that this country has joined with England in financial undertakings in Asia, and that these would be rudely disrupted by Mr. Bryan in a manner that would create great loss to the financiers of America, and give offense to England, and might precipitate conflict in the orient with suddenness.

"There are those in the east who say these objections are being urged more to have something of a tenable nature to present to President Wilson other than the mere objections to the policies which Mr. Bryan has heretofore represented in local house affairs. Those who are opposed to Mr. Bryan have busied themselves already to whisper to the members of the United States senate these objections, that they may let it be known to the president that Mr. Bryan cannot be confirmed and thus prevent his humiliation in the defeat of his confirmation, to persuade the president not to name him.

"Others will point out to the president that if Mr. Bryan is named and beaten for confirmation, though by Republicans, Bryan can claim that he was beaten want of devotion to him on the part of Wilson and promptly take the position

that another prominent man did, who when beaten by the senate for confirmation as minister abroad, made himself a candidate for the presidency against the very administration that had named him and was successful.

"Mr. Bryan has before him an interesting opposition, should he be named by Wilson, and will have a severe time to combat oppositions which will be presented to Wilson against Mr. Bryan for any position that touches either the financial or the international relations. He will not be opposed for any other position."

THE WORDS WE SPELL.

"Everybody's interested in spelling, and there's always something new to be learned about it," said Dr. P. P. Claxton, United States commissioner of education, when shown a report that present-day spelling books were given rather a severe jolt by Leonard P. Ayres of the Russell Sage foundation, on the ground that they do not contain words most useful for practical purposes.

Dr. Ayres has examined 2,000 business and personal letters and tabulated words actually used in them. He compares the words he finds and those in the usual school spelling lists with surprising results. Thus of the 414 words on the National Education association's spelling lists used in the Cleveland tests of 1908, 289 never once appear in any of the 2,000 letters, showing, according to Dr. Ayres, "that useful spelling lists can not be compiled by sitting at the desk and deciding which words people ought to know how to spell."

An astonishing poverty of vocabulary was revealed by the investigation. Only 2,001 separate words were discovered in the 24,000 tabulated, and 751 of these appeared but once. In fact, 43 words occurred so frequently as to make up half the total number, and 542 common words constituted seven-eighths of the aggregate.

"How limited this number is," says Dr. Ayres, "becomes most apparent when it is considered that the ordinary desk dictionary contains from 40,000 to 60,000 separate words, while small pocket dictionaries contain from 25,000 to 40,000." He points out that the average American does not even begin to make use of the words he learns in the elementary grades in school, for the elementary school books contain from 10,000 to 15,000 separate words. The explanation, he thinks, is that the pupils temporarily master for spelling purposes thousands of words which they proceed to forget as soon as they pass out of the elementary grades; and he suggests an extended investigation to determine just what words are most needed for ordinary use, to the end that a really fundamental list may be taught so thoroughly as never to be forgotten. Such a list, he thinks, would then furnish a sound basis for increase in vocabulary.

The correspondence examined by Dr. Ayres was of various kinds, including letters to a mail-order house; letters received by a physician; letters to the query department of a city newspaper; letters received by a lawyer; letters to teachers from parents of pupils; miscellaneous letters to a publishing house; family letters; and even "a small but varied collection of love letters."

ANNUAL ROLL CALL.

The members of Athens Camp No. 4980 Royal Neighbors, held their annual roll call on Wednesday evening in the rooms of the Modern Woodmen on the south side of the square. There was a large and enthusiastic audience present to enjoy a musical program of fourteen numbers which had been arranged for the occasion. Refreshments were served and pronounced excellent.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wonderful of all transformations.

And now comes a more serious period

when the joy of real motherhood should be as tranquil an effort can provide.

This is accomplished with a wonderful remedy known as Mother's Friend, an external application so penetrating in its nature as to thoroughly lubricate every cord, nerve, muscle and tendon involved.

There will be no pain, none of that nausea or morning sickness, no sensation of distress or strain of expanding muscles. The nerves, too, will be calm, thus making the period one of restful days, of peaceful nights and a source of happiest anticipation.

The young, expectant mother must be carefully watched lest she become absorbed in those mental distresses which fly before her for the most important event in her life.

Mother's Friend enables her to avoid all sensation of dread, worry or pain, and thus she is preserved in health and strength to take up the joyful task of motherhood.

You will find Mother's Friend on sale at all drug stores at \$1.00 a bottle. Do not fail to use it regularly as directed. Write to-day to Bradford Regulator Co., 135 Lamar Bldg., Atlanta, Ga., for their most valuable little guide book for expectant mothers.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

FARMER GRAIN DEALERS MEET COMING YEAR IN OTTAWA

NEW OFFICERS WERE CHOSEN AT THURSDAY MORNING CONVENTION SESSION

H. W. Danforth is President and A. C. Rice First Vice President--Former Speaker Adkins says Tendency is to As For Too Much Legislation--George Brunskill Tells About Livingston County Plan For Soil Betterment --Pres. Phil Ijs of Bankers Association Makes Plea For Vocational Education.

The attendance at the second day's sessions of the Farmers' Grain Dealers' association of Illinois was greatly increased and the opera house was filled with delegates Thursday morning when the call to order came. Officers for the ensuing year were chosen and Ottawa was selected as the next place of meeting.

Among the addresses made were those by F. D. Phillips, president of the Illinois Bankers' association, George Brunskill of Pontiac and Charles Adkins during the day sessions and in the evening Hon. H. G. Dunn of Iowa and Hon. S. H. Greeley of Chicago were the principal speakers. One of the features of the evening session was the presentation to the retiring president, F. C. Wallbaum of a beautiful hall clock as a token of the esteem in which the association holds him and a recognition of his good work. The themes discussed Thursday were all of direct interest to all farmers and grain dealers and in fact of interest to every consumer.

The Thursday morning session was called to order about 9:30 o'clock by President Wallbaum and he introduced Miss Ruth Leach of the Conservatory of Music, who sang in a very artistic manner Gounod's "Spring." As encores she gave "Twinkle in the Eye" and "Annie Laurie."

Miss Natalie Jensen played excellently two violin numbers, accompanied by Miss Rachel Jerald. Rev. W. L. Dorgan offered a prayer and then the report of the committee on credentials was made and accepted. The report of the nominating committee was as follows:

President—H. W. Danforth, Washington.

First vice president—A. C. Rice, Jacksonville.

Second vice president—J. C. Sawyer, Chasna Park.

Treasurer—J. B. Abbott, Mason City.

Directors—Fred Mudge, Peru; Bert Adelt, Pontiac; C. J. Baer, Monticello.

The secretary is to be chosen by the directors.

The nominating committee included Charles Adkins, chairman; W. B. Tiffany, T. R. Cain, J. S. Henebery, G. R. Drennan, Fred Mudge, George Brunskill, secretary.

On motion of Mr. Betts, with a second by Mr. McCabe, the report of the nominating committee was unanimously adopted. Each of the officers then expressed a few words of appreciation for the honors shown them.

J. D. Phillips, president of the Illinois Bankers' association, was to make an address at the morning session, but on account of a late train his address was postponed until the afternoon. The secretary read a communication from J. W. Shorthill, secretary of the Nebraska Grain Dealers' association, stating that he had been called back home to attend to some legislative matters after he had started to Jacksonville.

Managing Directors.

C. J. Lamb of Bement, who has been something of a pioneer in the

movement of organizing farmers into grain companies, was called upon and talked about the management of elevators. He said among other things:

"In a private concern the sole purpose is to make money and the organization is perfected for that purpose. A private concern would employ a manager and put him in control. If erecting a private concern we will build it as far away as possible from any farmers' co-operative elevator. A private concern often grows from the ownership of one elevator to a string of them. A private concern erecting an elevator exploits a community simply as a matter of profit. In such cases if there be no competition, the service is not apt to be extra good.

"In a co-operative company the management figures his margins as close as possible, the idea being to simply pay the costs of operation, interest and deterioration. I am aware the management of a farmers' elevator cannot figure too close for the profits and losses vary with the years. We have two good elevators at Bement, plenty of working capital and a surplus and we are trying to make a permanent concern which will endure through the years. A farmers' grain company must be democratic, that is, there must be a full discussion of the wishes of stockholders. The second condition to give permanence is that you must have control of stock so that it is held by the land owner selling to the elevator. Our stockholders agree to give their patronage and to sell back stock if it is ever sold. The third condition and one that is vital, is the equitable distribution of profits. I claim that the right thing to do is to distribute profits or surplus in accordance with the patronage given. Give the farmer all there is in his grain and market it at the cost of handling. Pro-rate back any profit in excess of these things and you will preserve your financial integrity.

"This has been an educational fund out some things that will conserve the strength of our organizations. I know that in some places the farmers' elevator is co-operating with its competitor in arranging for prices to be paid, etc., and I want to urge upon you that you are thus going contrary to the whole idea of co-operation and if the plan were followed out far you would undermine the whole system under which we are working." Mr. Lamb then recalled some of the experiences they had at Bement in starting their elevator. Their competitor wanted the farmers' company to enter into an agreement, but the farmers' company declared its independence at the start.

W. T. Cornelison of the Peoria grain exchange was present and explained something of the efforts that were made to prevent an advance in freight rates which would be very disadvantageous to Illinois grain men.

Afternoon Session.

The company which assembled in the afternoon at the opera house was numerous and everyone there enjoyed the splendid program supplied by artists from the Illinois Conservatory of Music. This was the program:

Pilgrims' Chorus from Tannhauser for piano.....Wagner-Jaell

Mr. Edmund Munger.

Love, the Pedlar.....E. German

Irish Folk Song.....A. Foote

May Day.....Walthew

Miss Frances Oldfield.

Bohemian Dance for violin.....Randegger

Cavatina.....Raff

Mr. William E. Kritch.

A. C. Rice, who was acting as presiding officer, next introduced Hon. J. B. Phillips of Green Valley, president of the Illinois Bankers' association. Some thoughts from Mr. Phillips' address are presented herewith:

Bankers Own Vast Acreage.

"I have no excuse for being here except that the Illinois Bankers' association was kind enough to elect a 'hay seed' to its presidency. Over half of the bankers of Illinois own 2,500,000 acres of land in this state. The closer that the bankers and farmers get together the better it is for all. I do not come with a set speech for this particular occasion but I want to tell you something of what the bankers' association is trying to do. Sixty per cent of bankers of Illinois I said own 2,500,000 acres in Illinois and you might think that the motives of our association are always selfish. Three years ago the association realizing the importance of agriculture, good roads and vocational educational training, appointed committees to look into these things. I have been in the councils of the association for some years and E. E. Crabtree of Jacksonville and I helped to start this movement in the association. The work of our

agricultural committee has resulted in the first bill before congress providing for national aid in increasing soil fertility. Illinois, however, is not the only state engaged in this work. Twenty-six states were represented at the New Orleans meeting of the American Bankers' association and there an agricultural committee was named and it is doing active work. In 1894 the government began educational agricultural work in the south and now \$5,000 boys are in the clubs resulting.

Few Read Bulletins.

"We have some of the best men in the agricultural school at Urbana and good work has been and is being done. But we cannot all go to the school and but few read the bulletins with care. The question is how to get the information on crop improvement brought close to those who need it most. The Bankers' association is trying to help solve the problem and the way to do it is to have county demonstrations as is done in the south. There are now seven hundred men in the southern states engaged in this work. DeKalb county has started this work in Illinois and many farm demonstrations will follow in Illinois. I hope that every county in Illinois will have one. The bankers and professional men cannot bring this to pass but you farmers can do it and should do it. Illinois must do this if the word failure is to be wiped out of the vocabulary. I would feel ashamed if I did not have a willingness to join in this work. The average yield of wheat in Europe is 34 bushels and in this country of ours 14 bushels is the average.

Education Real Basis.

"We are apt to say that agriculture is basis of all prosperity but this is only partially true. Underlying it all is education and we must provide vocational education for our boys and girls. Only seventy-five schools in the state are teaching anything about agriculture or other vocational work. We have in Illinois 10,650 one-room school houses and 300,000 of our boys and girls are getting all their education in them. Only 462 pupils out of 1,000 get to the high school. In Indiana eight-two counties out of 92 have consolidated schools. The bankers' association in conference with others has prepared a bill to present to the Illinois legislature providing for state aid in vocational training. I will admit that in some cases consolidated schools are not practicable, because the bad roads would make it impossible to get the boys and girls to school. In Putnam county they have a school where the pupils come from a wide area and where a small experiment station is maintained. In this case a school teacher is employed by the year and gives a vast amount of aid to pupils and their parents in experimental work.

The Good Roads Question.

"And now we come to the question of good roads and the bankers recognize how important good roads are. In Illinois there are 4800 road commissioners spending the road improvement money in 4800 ways. After their work has been done for a few months it is hard to see where the money has gone to. The Tice bill now before the legislature provides for about 14,000 miles of hard roads and this could be done at a cost of \$150,000,000. The plan is to expend \$7,500,000 a year for two years and the work will have been paid for. This would mean an annual tax of \$3.10 for the average farm in Illinois. The average farm comprises 129 acres. Good roads lead everywhere. These roads lead to the church which is the foundation of all our prosperity and progress. They lead to the school and they lead to the markets. I used to be afraid of the good roads question but I have been thoroughly converted to the proposition.

The bankers' association is like your association, for not all men eligible belong. I do not understand why any banker in the state does not join with us. We want all to become members and bear their share of responsibility. We are organized into groups and hope to take up our agricultural work through these groups. The bankers can do little for agriculture unless you farmers join with us. We ask that you join with us in our hope to bring about conditions which will benefit mankind."

Managers' Session.

When Mr. Phillips had concluded Mr. Rice introduced George Brunskill, chairman of the managers' association, to provide for the remainder of the session which was under the auspices of the managers. Chairman Brunskill in a brief address offered some very valuable suggestions in part as follows:

Against Discrimination.

Mr. Brunskill said that last year a statement made at the manager session brought a contribution of \$800 for legislative work and that the money has been wisely expended. He said further: "I am not a socialist but I do believe that the railroads should be compelled to give us all a square deal. A railroad should not be allowed to discriminate in the matter of car distribution. Some roads in months when crops are moving can furnish only six or seven cars a month and might as well be out of the business. Roads ignore warnings to get their cars in shape because of the prospect of big crop movements. When the time comes for moving crops you can see on many side tracks cars out of repair. One reason is that the roads are so heavily mortgaged that they put off expensive repair work just as long as possible.

Judging by the actual results of experimental work in box corn clubs in the south much can be done to increase the production of Illinois fields. Until a few years ago the college of agriculture accomplished comparatively little but now the university is taking the work out to the farms and is accomplishing much.

In Livingston county we started to raise money to pay for a crop expert or adviser. We had newspaper articles and created some interest in other ways but we could not get all

the money needed. Our plan now in Livingston county is to have memberships costing \$10 a year and each farmer agreeing to retain membership for four years and this plan is working out satisfactorily.

Referring to our state association I want to pay tribute to the work it has done. In our railroad matters we need something to fix responsibility. When we have anything to take up with roads it seems almost impossible to find out who is to blame so that offenders may be punished."

Tells of Soil "Agent."

Mr. Brunskill then outlined before the association what had been done in Livingston county by the soil "agent" employed there. "In some counties," he said, "there is a soil doctor, and in others an expert, but we call him a soil agent. Our man, Roy C. Bishop, is a graduate of Missouri university, and has the endorsement of the agricultural authorities of the Illinois university. His work is to study soil fertility, rotation of crops, soil analysis and such other large agricultural topics from the point of view of Livingston county farmers. The work includes a four year course in instruction and every member of that body that employs Mr. Bishop has the benefit of all the knowledge he can impart."

"In our county we have long ago learned not to depend on public subscriptions for the support of such work. Accordingly we take out memberships in our co-operative 'school,' paying \$10 a year for four years. This gives ample funds for the proper conduct of the work."

"I recommend the employment of such a soil agent by every county in the state. We find that it is paying us, and think every county will find it pays."

Mr. Brunskill also recommended large appropriations for the employment of attorneys to represent the association in the legislative work they have to do.

The chairman then introduced Hon. Charles Adkins of Bement, former speaker of the house of representatives. Mr. Adkins made the longest address of the afternoon and was heard with evident interest. He discussed a number of themes of interest to farmers in general. He said in part:

Seek Too Many Laws.

"When it comes to the success of your elevator it is really up to the manager although we too often forget about him when the business is a success and remember him when there is a loss. A good manager should be kept. We have a notion in the country that we want a law to fix every offense. Many organizations seek for special legislation against real or imagined offenses and want to get the credit. In the Illinois legislature there are at each session 100 to 1200 bills presented for which laws are asked. If we had all these laws we could not live in this state. Go up to the legislature and you will find that the members measure up pretty well with men from the communities in which they come."

An association like ours must know its rights and its limitations and not be taking up questions about which we have no real concern. The present corporation law does not prohibit a man from going out and buying up the majority of stocks of a co-operative company although such action would be utterly opposed. We have no right except by individual contract to distribute the surplus according to patronage and an amendment to the law is needed. Life of co-operative movement is in loyalty of its members. The plan to distribute surplus according to patronage is just and equitable and a law permitting this should be passed."

Farmers Not Insistent Enough.

Mr. Adkins then reviewed some bills which had been introduced before the Illinois General assembly but failed of passage. He spoke particularly of an anti-discriminating bill which he introduced himself and which no big paper supported. The Chicago Tribune called it a sizzler but did nothing to help pass it. He said that the legislature do less for farmers each term than for any other class. He said the reason is because farmers do not get after legislators and press chains to do dentists and doctors and horse-shoers and barbers. The average legislator knows little about farmers bills because nobody tells them and presses it home again and again. To get laws that you co-operating farmers want you must let the legislature know no uncertain way about your needs, wants and desires.

The bill governing the storage of grain was introduced by Mr. Tice a year or two ago. It put elevators in classes, made needed provisions for the storage of grain, requiring sufficient room and making the managers responsible. The Chicago Board of Trade advocated the put and call bill and a time it seemed to be lost but board members came down from Chicago and convinced the legislators that it was a good thing.

Legislators need educating along the line of bills before them and the way to get things through is to stay on the job. The big corporations and interests you can warrant know in advance the financial and moral standing of every man in the legislature. What we need is not a lot of new laws in Illinois but a carefully chosen changes and the enforcement of our laws we have."

Reciprocal Demurrage.

Taking up the reciprocal demurrage question Mr. Adkins reviewed the agitation along the line. He said it was at one time considered fair to make roads pay at demurrage rates when cars ordered are not received after a reasonable time.

The law was not passed failing by a few votes. The roads claimed that delays were caused by late unloading of cars and the various laws adopted by the different states make operation difficult and expensive and cause delays. The speaker also referred to some supreme court decisions and expressed the opinion that a reciprocal demurrage law is not constitutional. He said that he saw little hope for such a law in Illinois.

Further Mr. Adkins said there was something wrong in the way that the

Only One Year Old

May happiness and prosperity be yours for this year to come.

We want to thank you for the patronage given us. Our total of business for the year is \$74,482.29. Think what that means for Morgan county. In our list of new resolutions let us determine to be a booster instead of a knocker for a home enterprise for the year to come.

Over-Night Relief for Constipation

A Small Dose on Retiring and You Are Well and Happy by Morning.

It is only natural that the simplest of ailments should be the most general, and so we have a whole nation suffering from constipation and indigestion, for they are closely allied. But common as indigestion is many people do not seem to know they have it. They will complain of headache, drowsiness or biliousness, all unconscious of the cause of the trouble.

You should have a full and free movement at least once a day. If you pass a day your are constipated and the result will be that you will catch cold easily or have a more serious ailment. To cure the constipation and forestall still graver trouble take a dose of Dr. Caldwell's Syrup Pepsin at night before retiring and by morning relief will come, without disturbance from sleep or any inconvenience.

Legions of people use it regularly in such emergencies, some of them formerly chronic invalids who have suffered from constipation all their lives. Mr. A. B. Danner, 326 Riley St., Harrisburg, Pa., says: "Dr. Caldwell's Syrup Pepsin gave me almost instant relief from stomach and bowel trouble. I now eat anything I want and sleep well." Many others will tell you that they have tried most things recommended for this purpose but have found Syrup Pepsin the only one always reliable. A bottle can be obtained at any drug

MR. A. B. DANNER.

store for fifty cents or one dollar, the latter size being bought by families already familiar with its merits. Syrup Pepsin is mild, pleasant-tasting and non-gripping. Mothers give it to tiny infants and yet it is effective in grownups. It is for everyone who suffers from any form of stomach liver, or bowel trouble, constipation, dyspepsia, biliousness, etc. Its action will so delight you that you will forever avoid harsh cathartics, purgatives, pills and salts.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal card will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

Miss Minerva Crowell and Miss Phoebe Hawn, Known as "Two Venuses" of Hike to Washington.

Photo copyright, 1913, by American Press Association.

Two of the women who undertook the hike from New York to Washington have very pretentious nicknames. They are called "the two Venuses" of the hike. Above is a snapshot of the pair, taken during the early part of the march. Miss Minerva Crowell of Smith college is on the left, and Miss Phoebe Hawn of New York is on the right.

FARMER GRAIN DEALERS MEET COMING YEAR IN OTTAWA

(Continued From Page 8.)

public has gone after railroad reform. He believes in a commission to learn the physical and going values of roads and thus be in position to know that rates of freight are equitable.

In closing his remarks Mr. Adkins differed very materially from the ideas advanced by Mr. Phillips for educational reforms. He was of the opinion that the vocational training plan suggested would revolutionize the entire educational system of the state and would pile on too much in the way of taxes. The speakers expression about taxation found a responsive chord in his auditors and he was roundly applauded.

Mr. Cain Presents Memorial.
T. R. Cain of Arnold presented the following memorial, which was adopted:

"To the sixty-third congress of the United States:

"The undersigned, being farmers and representatives of farmers' organizations, most respectfully petition your honorable body as follows: "We urge you to create a commission, of not less than three men, whose duty it shall be to gather such information as will tend to show the profits of the farmer, in the major food producing sections, and the approximate cost of production of the leading cereals, cattle, sheep and hogs; also the cost to prepare these products for food with the cost of distributing the same.

"We also ask you to make a reasonable appropriation to cover the cost of this work and to provide for the printing and distributing a report of the above investigation when made.

Complaint at Living Cost.
"We submit the following as our reason for asking for this investigation:

"There is universal complaint of the high cost of living, and as there has been no careful or reliable investigation to show the cost of producing and distributing the leading food products, we believe it a matter of interest and justice to the people of the country that this investigation be made, and that the results of such investigation be published.

"To promote the greatest degree of prosperity for all, the producer must receive fair compensation for his labor, else production will decline and the population of the rural districts decrease, while on the other hand the consumer is entitled to buy his food at a reasonable cost. "We believe that this investigation will materially aid in bringing about a just relation between the producer and consumer of food products."

Standardizing Grain.
The next question on the program for discussion was: "Why Should Farmers of Co-operative Elevator Companies be Interested in Standardization of Grain and the New Methods of Farming?" It was introduced by P. C. Allen of Ransom, who began by asking a number of questions with the following result:

Fifty managers of elevators were present; twenty-six of them advance money on grain; ten advance money without interest; nine store grain free; two pay for exchange on drafts. Mr. Allen then went on to point out the needs of standardization and to show how he had encouraged the patrons of the elevator he manages to take steps to improve the quality of their grain.

Work Should be Broadened.
The next speaker was H. A. Bonges of Ottawa, who presented a paper on "The State Association, What it is Doing and What it Should Do." The speaker in introducing the subject said that every patron of a farmers' elevator should tell the absolute truth about the grain he expected to deliver and the manager in turn should pay the highest price he possibly could for the grain. He then went on to say that the association is not as active as it should be and does not accomplish as much as it might. He said no one person was to blame for this but rather the members as a whole are not nearly so active as they should be. He said the Iowa association accomplishes more simply because of the activity and earnestness of its members.

The question, "Is Competition Necessary or Desirable Where There is a Co-operative Elevator Company," was the subject presented by F. S. Betts of Cerro Gordo, a manager of considerable experience. Mr. Betts presented some views on the subject which made it appear in a new light to many of his auditors. T. R. Cain of this county was called on to discuss the subject. After the discussion of some minor matters the afternoon session was adjourned. (For additional report see page 2.)

NEW GEOLOGICAL

MAP OF ILLINOIS
A new geological map of the state on a scale of approximately eight miles to the inch, is ready for distribution by the state geological survey. It contains the same information as the base map issued by this office in 1911, with the addition of colors to represent the different geological formations.

The location of the shipping mines is shown and the oil fields are outlined. Two cross-sections show the position of the beds beneath the surface and a short geological history of the state is printed on the same sheet.

A copy of this map on heavy paper will be sent on receipt of 15 cents in stamps to cover cost and mailing. A similar copy, mounted on cloth and sticks, will be sent if in addition to 16 cents postage, you will enclose money order for 29 cents payable to A. J. Nystrom & Co., of Chicago. Remittances should be sent to the director of the state geological survey, Urbana, Illinois.

Orders will be filled as received until the supply is exhausted. Yours very truly,
F. W. DeWolf.

TEH TEMPERATURES.

The temperatures for Thursday according to G. H. Hall, weather observer at Alexander, were: maximum, 58; minimum, 34.

WITH THE FIGHTERS.

Young Togo, the Japanese boxer, is down and out and is now working in a restaurant at Fort Smith, Ark. Sany Ferguson, who will take another fling at the boxing game, has signed to meet Jeff Madden at Putnam, Conn., Feb. 25.

The Dixie Kid, the colored welterweight, was defeated in a 20-round bout in London the other night by Johnny Mathieson of England.

A bill has been introduced in the California legislature making it illegal to put on a boxing match between a white boxer and a negro.

Jack Lester, the heavyweight boxer, who has just returned from Australia, gives Promoter McIntosh a paralyzing about the way he treats American boxers.

"Stomach Misery ALL GONE"

"My! How I Did Suffer But Now I'm Happy All Day Long and Sleep Fine."

That's what a woman said just a few months ago. She said more and more and here it is: "I wish I lay within my power to persuade every woman suffering from dyspepsia or indigestion (or whatever they may think their stomach trouble is) to give ME-O-NA Stomach Tablets one week's fair trial. I am sure that every one of them would thank me from the bottom of her heart."

I am well and happy for the first time in years and I do not hesitate to give ME-O-NA Stomach Tablets all the credit. Follow this advice. Give ME-O-NA Stomach Tablets a week's trial; if they do not benefit, Coover & Shreve will return the cost 50 cents.

10 Per Cent Investment

We have for sale at about half its value an 8-room house, with every modern convenience, on paved street, and well located, for income purposes; now rented for \$200 per year and ought to bring considerably more. This property can be sold, if taken at once, for

\$2,000

to satisfy a debt. Call in person for particulars. Don't phone.

THE
Johnston Agency

NOTICE

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD". It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat 10.00 to 14 per cent
Crude Protein 52.50 to 60 per cent
Crude Fibre 1.00 to 3 per cent
Phosphate 10.00 to 12 per cent

What Is "Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shipstuffs, or alfalfa meal.

TANKAGE recommended by all leading experiment stations.

It is packed in one-hundred-pound burlap sack, plainly marked "SURE FATTEN HOG FOOD," analysis as above. It is the ideal feed to balance rations.

What "Sure Fatten Hog Food" Tankage Does.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one third.

It grows better proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANKAGE fed hogs ship well with small shrink.

While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

Manufactured by the Jacksonville Reduction Co., Jacksonville, Ill.

Mustard's Quick Relief Without the Blister!

You remember the good old-fashioned mustard plaster.

Your mother and your grandmother used to apply it whenever you had a cold, an ache or a pain.

It burned like sixty, but it surely did the work.

Here is the old family remedy, greatly improved by science and put up in Twentieth Century Form—

The quick and blessed relief without the blister of the mustard, or the bother and messiness of the plaster.

MUSTEROLE is a clean, white ointment, made with the oil of mustard. For MUSTEROLE, the oil of the highest grade of mustard is refined until it is as pure as human milk can make it.

You simply rub it on the spot where the pain is—rub it on briskly and the pain is gone.

Not a blister is left even on tender skin! Instead it has a delicious, comforting effect.

You don't have to spread MUSTEROLE on a cloth. Just apply it with the finger tips.

You don't have to bind on a cloth. MUSTEROLE is so penetrating that it goes right through the pores at once.

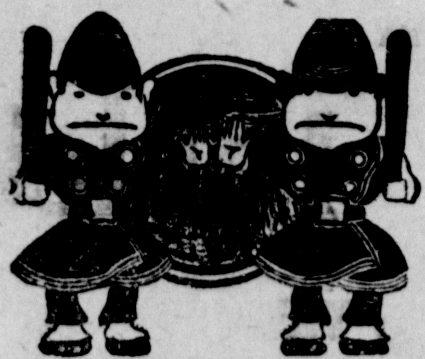

And there is nothing like MUSTEROLE for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion Pleurisy, Rheumatism, Lumbago, Pains and aches of the back or joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents Pneumonia).

At your druggists in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

PROTECTION AGAINST EXCESSIVE CHARGES

Is what you get when you negotiate for a loan with us. We have a plan that makes it very easy for you to get immediate use of \$10 to \$100. No bother, no trouble, no red tape methods here. We loan money on furniture, pianos, or anything of value. You can pay us back in either weekly, semi-monthly or monthly installments.

HELP FOR WORKING GIRLS

Two Girls Tell Story of Their Illness and How They Found Relief.

New Orleans, La.—“I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better.”
—Miss ANELLA JAQUILLARD, 613 Seventh Street, New Orleans, La.

St. Clair, Pa.—“My mother was alarmed because my periods were suppressed and I had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them.”
—Miss ESTELLA MAGUIRE, 110 Thwing St., Saint Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Act Quickly

Don't wait until you have some ailment caused by poor digestion, biliousness, or by inactive bowels which may lead to a serious sickness. Immediate relief is afforded by that best corrective and preventive

BEECHAM'S PILLS

SERVIA AS A NATION.

It Originated in the First Half of the Seventh Century.

The birth of Servia as a nation, settled in or near its present home, may be dated in the first half of the seventh century. About 600 A. D., when the Avaric empire of desolation was established on the Danube, two tribes, the Croats and the Serbs, retiring before the ravages of the Tartar horsemen, settled in the countries now known as Croatia, Bosnia and Servia.

They were Slavs, but the Croats perhaps had, like the Slavs of Moesia in after years, adopted the name of a Tartar tribe. Both, fleeing from the Avars, were naturally hostile to them, and it is possible that they settled in the empire with the consent or even at the invitation of the Emperor Heraclius I. At any rate, they appear to have been considered as vassals of the empire. Their first settlements lay rather westward of the country now called Servia, the Drave, the present western boundary, being the dividing line between Bulgar and Serb in the eighth century. Here the Serbs dwelt more or less uneventfully for three centuries. They generally formed a loose confederacy under chiefs called zupans. They were commonly, in a loose fashion, loyal to the eastern empire mainly through fear of their dangerous neighbors, the Bulgarians. About 840 they united under a chief named Vlastislav to repel the latter.

The country rose to great heights under Stephen Dushan, the czar of the Serbs, but after his death Murad I. conquered the country, and it was not until 1815 that the Serbs partially threw off the Turkish yoke—Exchange.

PRECIOUS MUGS.

The Crucibles Used in the New York Assay Office.

In the government assay office on Wall street, New York, there is a corner that looks very much like a mug rack in a country barber shop, where every customer has his individual mug highly decorated in gilt letters.

On this rack are perhaps fifty crucibles for melting down gold. The crucibles are decorated with crude initials and numerals and are the property of the biggest gold mining corporations in North and South America.

The reason for the individual mugs is that the clay of crucibles takes up a considerable quantity of gold in the process of smelting which otherwise would be lost to the customer bringing the gold to the government to be refined. After two or three smeltings the clay is saturated and takes up no more gold. When it is finally succeeded by a new crucible it is returned to the customer to be broken up for its hidden gold.

Mugs that are used for melting down random lots of gold are carefully preserved by the government refiners and sold. Uncle Sam pockets the proceeds, as in these random lots there is no way of computing to what amount each of perhaps twenty customers may be entitled. It is only the smelting concern that sells the government enough gold at one time to monopolize a single melting that obtains the right to a mug on the rack. — New York Tribune.

Ice Cream and a Nerve.

Why do we sometimes get an ache in the nose when eating ice cream. There is a nerve running along the back of the nose which doctors call the anterior palatine nerve. This has a branch running along the base of the nasal cavity and another branch running along the palate. The ends of these branches join through finer branches which run through openings in the palate near the front teeth. When we get some ice cream in the mouth and keep it in front for a moment so that the irritation produced by the cold reaches the fine connecting branches the sensation may be carried to the branch in the nose. Irritation of this branch produces the sensation of pain. We get the same sensation when breathing very cold air. — New York American.

Meredith and Words.

George Meredith, according to the London Chronicle, “employs that abominable contraction ‘alright’.” It can't be a printer's error, for it occurs more than once. And he uses it as early as 1863, so that the abusers of our language may now claim Meredith of all men as their prophet. This is one of those things that baffle explanation, particularly from a writer whose use of words was meticulous and who always refused to delete the first ‘t’ in ‘judgment,’ always spelling it ‘judgement’ in his novels. Some of us, however, will fight ‘alright’ to the bitter end.”

Social Surgery.

The newly rich dame took her daughter to a fashionable school and interviewed the haughty principal.

“I want my daughter to learn to act as if she had moved in aristocratic circles all her life,” she explained.

“I see,” mused the principal. “And are you willing to be separated from her that long?” — Cleveland Plain Dealer.

Historical.

“Children,” asked the visitor who was addressing the school, “how many of you can tell me what it was that Napoleon's soldiers used to call him?” Nobody answered. “Think a moment.” “Little.” Still nobody spoke up. “Little Corp.” — “A little corpulent!” shouted the children. — Chicago Tribune.

Do you wish to know if anything is the Lord's work? See if it is a work among the poor. — Charles Kingsley.

POLITICS AND POLITICIANS.

It is said that President Wilson's inaugural address will be one of the shortest on record.

Judge W. W. Graves of the Missouri supreme court is mentioned as a possible successor to William J. Stone in the United States senate.

Racine, Wis., will hold a special election April 1 to decide whether the city shall adopt the commission plan of government.

Friends of Congressman Frank B. Willis understand that he intends to enter the race for the Republican nomination for governor of Ohio next year.

Permanent headquarters of the Republican party, in charge of Jas. B. Reynolds, secretary of the national committee, will be opened in Washington about April 1.

That woman suffrage will be in effect all over the United States by 1920 is the prophecy of Dr. Anna Howard Shaw, president of the National Equal Suffrage league.

The first formal address of President Wilson after his inauguration probably will be delivered at the Grover Cleveland anniversary exercises in New York on March 18.

Representative William B. Wilson, chairman of the house committee on labor, is to be tendered a farewell dinner, to mark his retirement from congress, and in appreciation of his services to organized labor, by the Central Labor union of Washington.

Gen. Powell Clayton, who recently retired as the Arkansas member of the national Republican committee, is believed to be the only man living who sat as a delegate in every Republican national convention since the party was first organized.

Three delegates have been appointed by the hobo's union to attend the inaugural of President-elect Wilson. They will make an effort to present him with a document describing how their constitutional right to liberty is interfered with by the authorities in various states.

Henry Morganthau, the New York lawyer, who is among those prominently mentioned for a place in the Wilson cabinet, was born in Germany 57 years ago. As a child he accompanied his parents to America and was educated in the public schools of New York and at the College of the city of New York.

Governor Brown of Georgia has appointed Senator Bacon to serve as United States senator for the period between March 4 and the time of Senator Bacon's formal re-election by the legislature next June. Mr. Bacon's present term expires March 4, but he was nominated for another term in the Democratic primaries in Georgia last fall.

William R. Webb, recently sworn in as Tennessee's United States senator to succeed Newell Sanders, is a confederate army veteran. While serving in the 15th North Carolina infantry he was wounded three times in the battle of Malvern Hill. During the greater part of the time since the close of the war Professor Webb has been engaged in conducting a private school at Culleoka, Tenn., where William J. McCombe, chairman of the Democratic national committee, and the late ex-Senator Edward W. Carmack were educated.

RHEUMATIC PAINS GO SWOLLEN JOINTS VANISH

RHEUMA—Greatest Remedy for Rheumatism, Gout and Sciatica
Only 50 Cents and Money Back From Coover & Shreve—If It Doesn't Satisfy.

Thousands of people during the last year freed themselves from the bondage of rheumatism; rid themselves of the torturing pain; reduced the swollen joints; threw away canes and crutches, and from helpless beings became able to work and be of use to themselves and their families.

They took RHEUMA; the modern enemy of rheumatism, which is also sure to cure lumbago, sciatica, arthritis, gout, chronic neuralgia or kidney disease.

Don't be skeptical about RHEUMA. You will know in a few hours after beginning the treatment that the poisonous uric acid is leaving your system through the natural channels. You will feel better in a day you will know you are going to be cured in less than a week.

Don't think because RHEUMA is sold for only 50 cents a bottle that it won't bring you back to health. There is no guess work about it. RHEUMA is better than any remedy at ten times the price. Ask Coover & Shreve.

SPEEDY JUSTICE IN MISSISSIPPI.

Gulfport, Miss., Feb. 20.—No ground for complaint of the delays of the law is to be found in the case of Percy Newkirk, a negro, who is under sentence to be hanged here tomorrow. Just four weeks will have elapsed between the moment of his arrest and his execution. On the morning of January 21 Newkirk shot and killed Chief of Police Charles Dickey. He was immediately arrested and confessed to the crime. Within three hours he was placed on trial and an hour later he was convicted and sentenced to death. The jury was out less than three minutes. The speed with which the trial was conducted was due to the desire of the authorities to avoid a possible lynching.

CANDIDATE FOR COMMISSIONER

I hereby announce my candidacy for read commissioner in district No. 1. Election March 4.
John M. Stice.

Our Query and Reply Department

What is the Signification of Phoenix?—A mythical bird, without a mate, supposed to have renewed itself every five hundred years by being consumed in a fire of spices, then rising from the ashes resumed its flight.

What is Billingsgate?—Billingsgate is a coarse language. The fish market of Billingsgate, London, was singularly noted because of the rough and disregardful tendency of the language used by its fish-mongers. Hence the application.

What is the Order of the Garter?—It is an English order of knighthood instituted by Edward III. on St. George's day, 1344, and is the highest order of the kind. It is related that the countess of Salisbury, in dancing with Edward III., happened to lose her garter, whereupon the king picked it up and tied it about his own leg; that this action might not be misinterpreted, he immediately restored the garter to the countess, exclaiming: “Shame to him who thinks evil.” This exclamation remains the motto of the order and is seen in the royal arms.

What are the Number of Visible Stars?—The number of stars that can be seen by a person of average eyesight is estimated to be 7,000. The number visible through the telescope is estimated to be 100,000,000.

What is the Cause of Rust in Iron?—Oxygen entering into combination with the surface of the metal, the combination being promoted by moisture; rust is an ordinary term for the oxidizing of iron.

What are the Languages in which the Bible was originally written?—The old testament was written mainly in Hebrew, but partly also in Chaldee; the new testament was written in Greek.

Who Wrote “Hail Columbia”?—Judge Joseph Hopkins, during John Adams' administration. The music was arranged by Feyles, the leader of the orchestra of the only theater in the capital. It was first called “The President's March.”

BASEBALL NOTES.

The Indianapolis Indians will have a real Indian in the lineup if the manager succeeds in signing up Pitcher “Chief” LaRoy.

The chances are that the New England league will have an entirely new staff of umpires the coming season.

Young catchers in the American league to fill the places of Sullivan, Street, Stephens and Schmidt are Sweeney, Schalk, Stange and Schang. Pitcher Nap Rucker of the Brooklyn Superbas says that in his opinion Jim Sheppard of the Cubs has the greatest batting eye in the National league.

George Stone, who when playing with the St. Louis Browns a few years ago, led the American league in batting, is trying to land a berth as a minor league manager.

Manager Chance of the New Yorks says that if he can get into proper condition during the training trip he will cover first and move Chase to the second station.

It is said that the combined salaries of the three regular outfielders of the Boston champions is less than the salary said to have been demanded by Ty Cobb from Detroit.

President Locke of the Philadelphia Nationals has signed Hugo T. Wedell, a former college player and at present a member of the faculty at the University of Kansas.

If Eddie Plank carries out his threat to retire from the game the Athletics will be sorely against it. The veteran twirler could always be depended upon to deliver the goods.

Manager McGraw is trying to put over a trade for Pitcher Tyler of the Boston Braves. “Mac” wants a left hander in case “Rube” Marquard should fail to play this year.

A championship team is a fine thing in the fall, but when you try to sign ‘em up in the spring they will surely cop your Angora. Inquire for Mr. McAleer of the Boston Red Sox.

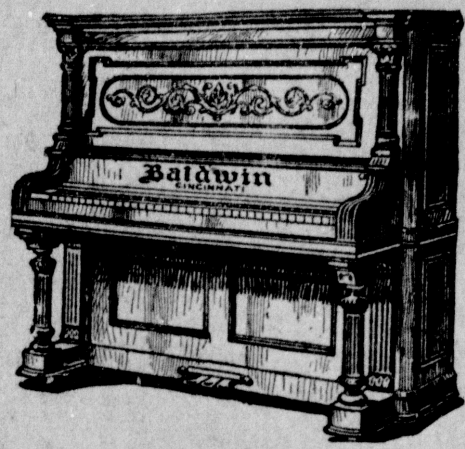

Terry Turner, the veteran Nap, will round out a decade of service as a Cleveland player the coming season. Right now Terry looks to be in better physical condition than at any time during the last five years.

WEDDING ANNIVERSARY.

The third, or leather wedding anniversary of Mr. and Mrs. Ben H. Nunes was celebrated a few evenings since at the home of Mrs. Charles Williams, mother of Mrs. Nunes at 842 North Main street. About thirty relatives and friends were present and a very happy evening was spent. Quite a number of presents suitable to the occasion were brought by the visitors and presented with appropriate remarks. The evening was spent in general conversation, games and cards. Light refreshments were served and the evening was one not soon to be forgotten.

What the One Price, No-Commission Plan of Selling Pianos Means

TO THE PURCHASER

1st: That every piano in our store is marked at the very lowest cash price that pianos of such quality as we handle can be sold for any time and any place.

2nd: Being out of the high rent district, employing no salesmen, tuners or expensive help enables me to sell at one small factory profit. I am in a position to make the lowest possible prices on high grade standard pianos.

3rd: We are proud of the fact that we are exclusive representatives of the Famous Old Reliable Baldwin Line of Pianos and Player-Pianos. Such makes as Baldwin, Ellington, Hamilton, Howard and Monarch pianos, need no introduction to the purchasers of high grade pianos anywhere in the civilized world. Names that have been the standard for fifty years of successful manufacturing. Pianos that can only be represented by reliable dealers. These pianos have a certain commercial value, both to buyer and seller and can't be “peddled” at fifty different prices.

4th: Our terms of payments enables anyone to enjoy a piano while they are paying for it. You pay no more than the cash buyer, except a small rate of interest to pay expense of bookkeeping. Have just received a shipment of the new 1913 styles which we would be glad to have you inspect.

FAVORITE ISSUES DULL AND HEAVY

WIDE CHANGES RESTRICTED TO LESS ACTIVE STOCKS.

Liquidation of Inactive Stocks a Feature of Recent Decline in the General Market—Little Head Given to Outlook For Peace in Mexico.

(By Associated Press)

New York, Feb. 20.—Wide changes of the day in the stock market were restricted to the less active stocks. The favorite issues moved within a narrow range and were dull and heavy. Among the less active stocks declines were larger, in some cases running up to 6 and 8 points. Liquidation of inactive stocks has been a feature of the recent decline in the general market. Discrimination by banks against such stocks as collateral is said to have led to forced selling.

The spirited buying movement which was in progress when the market closed yesterday was not followed up today although opening prices of a majority of the leading issues were higher. This advantage was quickly lost and a heavy tone developed. The market was subjected to no severe pressure and few of the prominent stocks moved as much as a point below yesterday's close. Union Pacific, Reading, Northern Pacific and Smelting were most susceptible to pressure.

Sentiment was bearish and little head was given to such favorable factors as the outlook for peace in Mexico, the more cheerful feeling abroad and the excellent statement of January of Baltimore & Ohio. These conditions apparently were outweighed by the importance given to the proposal to double the state tax on stock transfers. Such a plan advanced at a time when the street was already feeling the accumulated weight of its woes, made sentiment decidedly bearish.

There was an easier tendency in the money market.

WHEAT TAKES AN UPWARD SLANT

REVIVAL OF EXPORT DEMAND CAUSES RAISE.

Prices First Take Downward Turn

Owing to Rain or Snow From Oklahoma to South Dakota—Corn Makes Net Gain of 1/2 to 3/4¢.

(By Associated Press)

Chicago, Feb. 20.—Revival of export demand in the west for shipments by way of the gulf gave the wheat market an upward slant today.

The close was nervous as it shaded to 1/2¢ over last night.

Corn made a net gain of 1/2¢ to 3/4¢ in provisions the outcome varied from 5¢ to 7 1/2¢ decline to a rise of 2 1/2¢.

Owing to rain or snow extending from Oklahoma to South Dakota, inclusive, wheat at first took a down turn.

The market was bearish affected also by predictions that worldwide shipments for the week would be large.

For the time being northwestern reports of decreased arrivals formed the only offset in favor of the bulls.

News that foreign buyers were buying wheat in Omaha to be routed via New Orleans, affected a complete change in sentiment.

The result was to add quickly 1/2¢ to prices here and this, too, notwithstanding that a cold wave was putting an end to the deposit of moisture in portions of the winter crop belt.

However, a group of big houses with free orders to sell at any further advance brought about a feeling of uncertainty as trading came to an end.

Corn found friends when wheat began to ascend. Bears there were complaints that rural hauling was handicapped by bad roads.

Oats were firmer on account of belief that the weather was unfavorable for marketing though less so than for corn.

Provisions responding late in the session to the strength shown by grain. Earlier the bears were in control because of the liberal run of hogs here and at other leading points.

CHICAGO LIVESTOCK MARKET.

Chicago, Feb. 20.—Cattle—Receipts, 4,000; market steady.

Oats, 4500; market firm. Beves, \$6.75; 9.00; Texas steers, \$5.20; 6.00; western steers, \$6.00; 7.60; stockers and feeders, \$5.50; 7.90; cows and heifers, \$5.15; 7.40; calves, \$7.00; 10.35.

Hogs—Receipts, 34,000; market weak. Light, \$8.10; 8.35; mixed, \$8.05; 8.35; heavy, \$7.85; 8.30; rough, \$7.85; 8.05; pigs, \$6.25; 8.15; bulk of sales, \$8.25; 8.30.

CHARGE COMPETITOR USES THEIR BRAND

CAIN AND SONS ASK INJUNCTION IN CIRCUIT COURT.

Claim "White Lily Flour" Advertised and Sold By W. D. Cody is Not Up to Standard of Brook Mill "White Lily" and That Sale Injures Their Business.

John H. Cain, John D. Cain, Louis and Muriel Cain, partners, trading as J. H. Cain and Sons, are complainants in a bill filed yesterday afternoon with Circuit Clerk Eugene Pratt, asking that an injunction be issued restraining W. D. Cody, defendant in the bill from placing what they claim is a spurious flour under name of "White Lily" on the markets of Jacksonville.

The complainants claim that the chief product of the Brook Mill for the last fifteen years has been White Lily flour, and that said flour is known as a blended flour of the first quality and may be obtained for \$1.35 per 49 pound sack. They declare that they have spent large sums of money in advertising and establishing said flour and establishing a market therefor.

The bill filed asserts that W. D. Cody ordered 1300 flour bags labeled "W. D. Cody, White Lily Flour, packed expressly for W. D. Cody, Jacksonville, Illinois—49 pounds—White Lily Flour." That these bags were made by the Bemis Bag Co., of Kansas City, Mo., and that a large number of said bags were filled at the mill of Willis-Norton & Co., at Topeka, Kan., and that the same bags were shipped to and placed on the Jacksonville market by W. D. Cody.

The complainants further declare that the flour so put in the bags at the mills of the Willis-Norton & Co., and so put upon the market by W. D. Cody is an inferior grade of flour and is not equal in quality to the flour made and sold by the Brook Mill and that said flour offered for sale by W. D. Cody has been subjected to a bleaching process to make it resemble a flour of a higher grade.

They further state that the mills of Willis-Norton & Co., prior to November, 1912, made no flour known as White Lily flour and that the said flour so put out by them for the said W. D. Cody and offered for sale is not in fact White Lily flour of any brand but is a spurious brand and of very poor quality.

The complainants declare that W. D. Cody now advertises this White Lily flour in the Jacksonville Journal at \$1.10 per sack and that they are informed and believe that said W. D. Cody is now selling said flour at \$1 per 49 pound sack. They claim that this alleged deception on the part of W. D. Cody is injuring the business of J. H. Cain & Sons in that the grade of flour is so inferior to the White Lily flour made at the Brook Mill that people buying the cheaper flour under that name are deceived in the quality and high grade of the flour sold by the Brook Mill.

In view of the aforesaid arguments and the expenditure of much money and time in building up the business and market for White Lily flour as made by the Brook Mill the complainants pray an injunction restraining W. D. Cody, his agents, employees and servants from issuing the words "White Lily" or "White Lily Flour" upon any bag, sack, or other receptacle for flour produced by J. H. Cain & Sons, and in interfering in any way with the sale by J. H. Cain & Sons of their brand of flour known as "White Lily."

The court has not yet passed on the petition.

INDIGESTION FIVE YEARS

Relieved By Vinol.

Strength and even life itself depends upon the nourishment and assimilation of food, and unless digestion is good the whole body suffers.

Mrs. L. D. Cook, Vineland, N. C., says: "I was sick five years with indigestion. My stomach seemed to have a heavy load in it and at other times it seemed to be tied in knots. Nobody knows how I suffered."

"I tried a great many doctors and a great many kinds of medicine but nothing did any good until I took Vinol. It has helped me wonderfully. I am improving fast, feel better and am getting my flesh back again. Vinol has done me a world of good."

We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in curing chronic stomach trouble and building up all weakened run-down persons, and that is why we guarantee to return your money if it does not help you. Lee P. Alcott, Druggist, Jacksonville, Ill.

P. S. Our Saxo Salve is truly wonderful for Eczema. We guarantee it.

Milady's Mirror

Style Versus Beauty.

"Handsome is as handsome does" is a good old fashioned axiom, and beauty of soul is a fine thing; so is being good hearted. Many a plain looking woman has found consolation in the two latter attributes. In ancient Greece there were two kinds of women, the Venuses and the Minervas. When Venus frowned on one consolation was sought in Minerva. One is always a Minerva from second choice. Venus sits back in a porch rocker, calm, cool and serene in the knowledge that her hair won't get out of curl, her complexion won't blow off and she doesn't have to talk—just a smile, and everybody basks in it. Minerva works hard, her hair is limp, her nose is shiny, and she can't keep cool because she engages in heated arguments. Venus marries the millionaire and rides in a chaise; Minerva marries the professor and darns stockings. What a giddy world it would be if women were all Venuses, for it is undoubtedly the Minervas who are the balance wheel of society.

In modern days the next best thing to being a Venus, if one cannot be a Minerva, is to be stylish.

What is this seemingly indefinable thing called style? What is it that differentiates one woman from another? Why is it that one woman will be stylish and the other dowdy, though gowning in the same manner? Why will a pretty woman often pale into insignificance beside her plainer sister? One of the first things when the desire is born to be stylish or smart looking, as the English say, is to feel stylish. This is easier than to feel beautiful, as is occasionally advocated. The feeling that one has style is bracing. Unconsciously the body straightens, the head goes up and the step becomes smarter and brisker.

Another point to consider in this achievement is the poise of the body. She who slinks along and shuffles her feet will never attain the desired end, if style be her desire. Much has been accomplished when once you have thrown your shoulders back, your head up and acquired a smart step, for the proper carriage and walk are the foundation of style.

Beauty Hints For Travelers.

For the traveler there is a neat little case in pink linen, which is more practical than silk, because it can take many visits to the laundry without injuring its usefulness. This little case when unrolled displays pockets for the soap, talcum powder, cold cream, tooth powder or paste and toilet water. It will save many precious minutes in the dressing room of the Pullman sleeper, though it costs only \$1.50.

Another article which is sure to be appreciated by the traveler—and there are few not among this number these days—is the manicure set, with all the necessary little implements packed compactly into the buffer. This does away with those vexatious moments when the hurried traveler searches madly among the dozen and one articles in the bottom of the bag for the nail file or perhaps the orange stick. By pressing the catch at the side of the buffer the top springs up, revealing a velvet lined compartment containing a pair of scissors, half a dozen emery boards, a duplex file, an orange wood stick, a box of nail luster and another box of the salve. Close the catch and the buffer is ready for use. Many women buy them nickel plated for \$2 to keep in the bathroom, where the guest may use them easily and where they will not take up the room that the different articles would if spread out separately. The silver plated set costs \$2.50 and the solid silver \$6.

Care of the Body.

Castile soap and orris root in equal parts make a cleansing and fragrant tooth powder.

Don't rub the face with too coarse a towel. Treat it as you would the finest porcelain, tenderly and delicately.

A little carbolic acid added to the water in which burns, bruises and cuts are washed greatly lessens the soreness.

Rosewater, four ounces, and a third of an ounce of tincture of benzoin have the quality of bringing the blood to the surface of the skin and giving it a delicate pink color.

To make camphorated oil beat four ounces of camphor in a mortar with four ounces of Florence oil till the camphor is dissolved. This is an excellent liniment for rheumatism and all kinds of sprains.

Toilet Suggestions.

If the cuticle about your nails seems tough and there is a tendency to "hangnails" rub in a little vaseline or cold cream every night before retiring.

To whiten finger nails and improve the hands cut a fresh lemon in two and rub it well at night. Wash off in warm water the next morning. This same treatment is excellent for stains on the hands.

Astringent lotions should be used to reduce the large pores of the skin, which become clogged with dust and grime. These disfiguring pores are especially noticeable across the nose, often extending over the cheeks. If allowed to go without checking agents these pores develop into blackheads, than which there is no greater enemy to beauty.

WOODSON.

Mr. and Mrs. Clarence York and son Orman of Jacksonville spent Sunday at the home of her parents, Mr. and Mrs. James Galloway.

Miss Ruth Gallagher spent Saturday and Sunday in Murrayville at the home of Lelia Galloway.

Mrs. A. B. Ryle and son Robert of Ceres spent a few days with her daughter, Mrs. T. M. Whitlock.

Mr. John Wild and Wm. Galloway of Murrayville attended the Masonic school of instruction held here this week.

Miss Dorothy Tendick of Murrayville spent Tuesday in Woodson at the home of Mr. and Mrs. George Cunningham.

The many friends of Mrs. T. M. Whitlock are so glad to know she is able to sit up and hope it won't be long until she can call on her friends.

Mr. and Mrs. Harry Cade and son spent Wednesday at the home of Mr. and Mrs. Ed Cade.

Mrs. Wm. Adams attended the funeral of Mrs. DeLong held Sunday at Murrayville M. E. church. Mr. James Smith and daughter, Miss Emma of Harrisonburg, Mo., are visiting at the home of the former's daughter, Mrs. George Staples. They are going from here to Ohio to make a visit.

Mr. Henry Grunder left last week for Arkansas to spend a few months. Dr. R. R. Jones is still sick but is some better at this writing.

Fred Kitner has purchased the home place of Newton Shelton.

Wm. E. McCurley sold his farm east of Woodson to Ed Reynolds of near Athensville. He will take possession the first of March.

Misses Mary and Edith Nicol of Normal spent Saturday and Sunday at the home of their parents, Mr. and Mrs. Wm. Nicol.

Mrs. Sadie Morrow of Roodhouse who has been nursing Mrs. Whitlock left Monday for her home. She expects to leave for Oklahoma next week to visit her brother.

Mr. Sias Miller and Mr. Jno. Roph of St. Charles, Mo. visited Dr. G. W. Miller last Thursday and Friday.

Mr. Ira O. Smith has accepted a call at the Christian church here. He and his family are now occupying the parsonage.

Mr. Rabjohn and Mr. Eli Crawford and Mr. Frank Kitner, all of Jacksonville spent Sunday at the home of Mr. and Mrs. C. C. Self.

WHITE SOX TO THE COAST.

Chicago, Feb. 20.—Piloted by Jimmy Callahan a score of the players upon whom Owner Comiskey depends to win the American league pennant for the White Sox this season left Chicago tonight by special train for California, where the spring training of the Sox will take place. At various points enroute other of the players will be picked up, so that the entire lineup, including both the veterans and the "rookies" will be in the party when the destination is reached. The objective point is Paso Robles, where ten days will be spent in limbering up. Then the squad

will be divided. The first team will play a two weeks' engagement in San Francisco, with short jumps to surrounding towns between games. The second team will play in Los Angeles in the meantime and at the end of the two weeks' period the two teams will change places. On March 31 the team will start east by different routes and will engage in games in numerous cities in the southwest and west before reaching home for the opening of the championship season.

PEACE MEDAL FOR TAFT.

New York, Feb. 20.—President Taft, in recognition of his services in behalf of universal peace, will receive a gold medal as a testimonial reception and dinner to be held in his honor at Sherry's tomorrow evening. The dinner will be under the auspices of the American Peace and Arbitration league, and will be participated in by representatives of more than thirty peace and civic organizations throughout the country.

NEW LEAGUE IN SOUTHWEST.

Tulsa, Okla., Feb. 20.—The promoters of the new Southwestern Baseball league assembled here today to complete their organization. The circuit, according to present plans, will comprise the cities of Shreveport, La., Fort Smith and Little Rock, Ark.; Springfield and Joplin, Mo., and Oklahoma City, Muskogee and Tulsa, Okla.

J. M. C. Horn, comptroller of the Illinois Traction System of Chicago was transacting business with the local office Thursday.

NOTICE.

Holiday at Postoffice Jacksonville, Illinois.

Saturday February 22nd, 1913, will be observed as a holiday at the postoffice. There will be two deliveries in the business district, one at 7:30 a. m.; one at 9 a. m. One general collection at 6:50 a. m. One collection in the business district at 9 p. m.

There will be no delivery on rural routes. Office will be open from 9:15 until 10:15 a. m.

John J. Reeve

WEDDING ANNIVERSARY.

Mr. and Mrs. Ben H. Nunes celebrated their 3rd wedding anniversary Tuesday evening at the home of Mrs. Nunes' mother, Mrs. Charles Williams on North Main street. There were about 25 guests present. Games furnished amusement and during the evening delicious refreshments were served. Among those present from out of the city were: Mrs. J. B. Howard and son Clark of Peoria and Clarence Neese of Nelo.

The guests departed at a late hour wishing Mr. and Mrs. Nunes many more anniversaries.

VEHICLE LICENSE.

The vehicle tax for the year 1913 is now due and payable and all owners of vehicles are requested to make prompt settlement and avoid further expense.

R. L. Pyatt, city clerk.

Jake Mutch was a business caller in the city yesterday from Murrayville.

CHICAGO TRIBUNE "STARS"—NO. 7

John T. McCutcheon is the leading cartoonist of the day. He never draws a dull picture—every one contains a "punch." Yet his humor, keen as it is, is so good natured that it appeals even to the object of his wit. His life has been full of adventures. He is a globe-trotter and a brother to the great of many lands. This experience enables him to shape his lines along a wide variety of topics—most anything, in fact. Thus he always has something NEW. His genius is not limited to irony. He is equally effective in picturing little stories of romance and pathos.

Kindly, Intelligent, Sincere and Delightfully Funny

HIS CARTOONS ARE EASILY THE BEST PUBLISHED

Stories and pictures by top-notchers fill this issue, making their appeal to every person. Some tickle your funnybone until it aches, others start the fountains in your eyes. Old Doc Yak is a scream this time. It will cure the kidlets of measles. Every mother should read Marion Harland's story of children.

Over Six Hundred Pages for 5c

Three magazines in one. Beautifully illustrated in colors.

Here Are a Few of the Leading Features:

"Why Be Old, Even Though You Live to Be a Hundred?" asks Lillian Russell. Illustrated in four colors. One of Miss Russell's greatest articles.

Is the Dog Man's Best Friend?—By two authorities on the subject. One says the dog is loyal; the other brands it a treacherous coward.

Girls Fleeing from America—How and why young women who came here from Europe are returning to the fatherland to wed.

Should Women Pay Alimony?—A Chicago judge says they ought to when the divorce was their fault.

Laura Jean Libbey writes on "How to Tell Your Sweetheart's Fortune"—Some secrets girls should know.

2,500 Uniforms—All for One Man—Who is the man who has a different suit for every day for seven years?

Georgene Faulkner, The Story Lady, tells about "Fair Snow White." Don't fail to read this bewitching story. Charmingly pictured in four colors.

Don't miss The New Negligees—By Josephine Jordan. Quaint and fetching designs for milady.

And Briggs—Every Sunday in The Tribune is "The Day of Real Sport."

MORTUARY

Sessions

The remains of Mrs. M. F. Sessions arrived in the city Thursday morning at 11:15 o'clock via the Chicago & Alton railroad and were taken direct to Diamond Grove cemetery, where a brief service was held at the grave by L. H. Davis, pastor of Westminster Presbyterian church.

Shawgo.

Dr. J. B. Shawgo, for the past thirty-six years a resident of Quincy, and a popular and well known physician of that city, died at the Jacksonville State hospital in this city Wednesday afternoon. The remains were taken to the undertaking parlors of Williamson & Cody, where they were prepared for the casket and they were taken Thursday morning to Quincy, where funeral services will be held this afternoon.

Dr. Shawgo will be remembered by many in Jacksonville, where he and members of his family have been visitors on various occasions. Dr. Shawgo was born in Ohio 69 years ago, and when but 12 years old was brought to this state, where he has since resided. He was a graduate of Abingdon college, where he had earned the degree of B. of S. He studied medicine in New York and Chicago and was a man of fine literary and medical attainments. He was a member of the 85th Ill. Vol. Infantry, and was detailed as a scout during a great part of the time. It was while employed in the capacity of a scout under command of Gen. Dan McCook that he was enabled to carry from the field mortally wounded the gallant Gen. McCook, who fell in the battle of Kennesaw mountain.

He is survived by his wife and one son, Dr. Kirk Shawgo.

BRICK HOUSE SENT BY MAIL.

Uncle Sam's Parcel Post Gets Its Heaviest Parcel

The Jacksonville Brick and Tile Co., and Tondick, Thies and Tondick each sent by Parcel Post yesterday a brick of local manufacture to be used in building a brick house at the Coliseum, Chicago during the Clay Products Exposition, which is to be held February 26th to March 8th. This brick will be one of 25,000 sent by parcel post from every brick plant in the United States to be used in the construction of this house, which will be given away after the exposition.

The idea was originated to test the merits of the Parcel Post system and it is certainly a novel one. A record will be kept of each brick from the time the brick is mailed until it is delivered in Chicago in order to see how speedily Uncle Sam can deliver a brick house by mail.

It is probably that Uncle Sam's mail carriers in Chicago will not be overly enthusiastic for this method of delivery of brick house. Other mail carriers through out the country will watch the experiment with interest and fear and trembling. While the brick fireproof house is becoming more and more popular because of its permanency, economy and superiority, it is not probable that they will be delivered by mail to any alarming extent.

At any rate Jacksonville will have a brick in the first brick house ever sent by mail.

MISSION STUDY CIRCLE MEETS.

Thursday evening at the residence of Miss Wood on Jordan street the Mission Study Circle of the Congregational church held its regular meeting, which was largely attended. The paper for the evening was by Mrs. E. M. Coe, whose subject was: "The Church in China." Mrs. Coe gave a history of the church in China, telling of the early religion of the natives, and about the first protestant missionary, a Congregationalist who after laboring for 27 years, had three Christians in the land when he died. She also brought out the fact that the outbreak of the Boxer uprising there were 100,000 Christians in China and fully one-tenth of them were murdered, and that at the present time there are 200,000 Christians in the country. The paper was well presented and was followed by an interesting discussion. During the evening refreshments were served.

CONFIRMS APPOINTMENT.

Capt. L. P. Owen of Co. B. I. N. G., has received an order from Adj. Gen. Dickson confirming the appointment of Corporal Robbins Russell to Sergeant, Corporal Arthur Kingsley to Sergeant and of Private Durrell Hatfield to Corporal.

MRS. JAMES MOODY DIES

AT HOME OF DAUGHTER

Pioneer Resident of Morgan County Passes Away at the Age of 87 Years—Funeral Will be Saturday Morning.

Mrs. James Moody, one of the oldest residents of the city, died Thursday afternoon at 4:30 o'clock at the home of her daughter, Mrs. Edward Baerensfeld, 129 Caldwell street. About two years ago Mrs. Moody had a severe attack of pneumonia from which she had never fully recovered. Her advanced age has also been against her and for some time she had almost been an invalid.

Her maiden name was Miss Jane Batty and she was born in England, Oct. 6, 1825, being at the time of her death in the 87th year of her life. Her parents came to America when she was only 4 years of age and settled in Illinois. For a great many years the family resided west of Lynville and later moved near that place. On Feb. 27, 1844, she was married to John Moody, who died Jan. 21, 1871. They were the parents of twelve children, eight of whom have preceded their mother in death. Those surviving are Mrs. Edward Baerensfeld of Jacksonville, Mrs. George Hall of Alexander, Grant Moody of Sinclair and John Moody, residing northwest of the city. She also leaves one sister, Mrs. Ellen Holmes of Jacksonville, two grandchildren and eight great grandchildren.

Mrs. Moody was a woman of sweet disposition and beautiful character. During her long illness she had ever manifested courage and hopefulness that she would recover. She was an affectionate mother and although she had been called upon so many years ago to part with her husband through his death, she gave her devotion to her children. She was a member of the Christian church of Lynville and her passing away removes one of the pioneer residents of Morgan county and a citizen highly esteemed.

The funeral services will be conducted Saturday morning at 11 o'clock from the family residence, 329 Caldwell street, in charge of Rev. J. W. Miller of Grace M. E. church. Interment will be made in Liberty cemetery. The family requests that friends please omit flowers.

Rain Coats from FRANK BYRNS' Hat Store give sure protection.

C. E. Delaplaine returned home Thursday morning after a couple of days spent in eastern part of the state and took west bound train for Moberly, Mo., and St. Louis. He states he has papers in readiness to turn over \$139,000 worth of land first of March that is principally Pike county land. Pike county has cheapest land in state. Produce as much as \$200 and \$250. Proof goes with this. Don't be a coward if you have money. Buy a farm in Pike county and make \$10 per acre profit in next year. I have a few left that will do this and I have receipt which goes with these few farms.

ATTENTION, R. A. M.

Special convocation Jacksonville Chapter, No. 3 this evening at 5:30 sharp. Work in M. E. Super at 6:15, followed by work in Royal Arch degree. Please be present. Visitors welcome.

GAVE SILENCE SOCIAL.

Thursday evening at the residence of Miss Elizabeth Long on West Lafayette avenue, members of the B. Y. P. U. of the First Baptist church gave a "Silence" social, which was largely attended. The guests found their partners by matching quotations in a guessing contest and when they were seated at tables all sorts of stunts were performed in an effort to make them laugh. Each time a guest laughed he was obliged to give a penny as a forfeit. The social proved a most enjoyable affair and during the hours refreshments were served.

REMOVAL NOTICE.

Dr. C. C. Patchen removed from 301 1/2 South Main street to 340 East State street.

CARD OF THANKS.

We wish to extend our thanks to all who so kindly extended their sympathy and helped us in our late bereavement in the loss of wife and mother.

G. W. Benton and children.

FUNERAL NOTICES

The remains of William W. Matthews were brought to this city from Brown's Crossing, Thursday via the Wabasha and were taken to the Giham undertaking establishment. Private funeral services will be held at Diamond Grove cemetery this afternoon at 2:30 o'clock in charge of Dr. A. B. Morey.

Funeral services for Joseph Blackburn will be held this morning at 10:30 o'clock at Ebenezer church in charge of Rev. E. B. Honck, assisted by Dr. J. R. Harker. Interment will be made in Ebenezer cemetery.

Colonial supper, Centenary church this evening, 25c.

ERECTING NEW TOWER.

A force of men is engaged in erecting a new tower for the watchman at the East State street railroad crossing. The new tower is to be located at the southwest corner of the school for the Blind property and will be supported by four steel pillars. It is understood that when the tower is completed the compressed air device used for operating the tower will be installed. The old tower will be removed and the improvement will make a much more sightly as well as convenient arrangement.
